18 Babies Dead, 50 Others Ill As Epidemic Sweeps East Towns

Pirate Boat Robs B.C. Fish Buyer

Armed Robber Gets \$3,500 Loot Near Vancouver

VANCOUVER, July 23.—(CP)—British Columbia police today pressed an air-sea search for two armed "pirates" who boarded a fish boat in northern B.C. waters and robbed the skipper of \$3,500.

Communication difficulties hampered gathering of details of the robbery, which took place yesterday at Rivers Inlet, 240 miles northwest of here. More than 1,000 fish boats were in the vicinity.

T. A. Bates, manager of Vancouver Fisheries, buyers of the victimized 44-foot fish-buying vessel also said he received scanty details of the hold-up by radio-telephone from Bob Finlay, of North Vancouver skipper of the Alce.

Mr. Bates said Finlay told him two men came aboard and had taken the \$3,500 from him. He and his fellow crew member, Ernest Reid, of Vancouver, had been unable to prevent the robbery.

Provincial Police at coastal points between Prince Rupert and Vancouver immediately threw out an all-sea search net for the armed sea-bandits.

REPORTS INDICATE THE MONEY was to be used by Weaver for buying fish from gillnetters and seiners on the sock-eye grounds.

At the present time Rivers Inlet area is the centre of a salmon fishing industry, comprising about 1,000 boats.

BUYERS WARNED
All fish buyers have been warned by radio-telephone by Provincial Police to take special precautions aboard their boats. Police fear the pirates may attempt other holdups on the fish-buying boats, which carry a total of several hundreds of thousands of dollars during the sock-eye season.

Showers Here For Weekend

Sunshine will be scattered in the Edmonton area this weekend with a forecast of variable cloudiness and some showers.

A weather disturbance moving through B.C. today is expected to give increasing cloudiness and showers activity here tomorrow.

Light showers in the Edmonton area yesterday afternoon about 2.30 produced only traces of rain.

Rain throughout the rest of the province covered mainly in the Prince Albert region where 1.25 inches was registered.

Today's forecast is for variable cloudiness with temperatures much the same as yesterday. Winds will be light. Expected high today is 50 above.

Sharp 'Quakes Are Recorded

NEW YORK, July 23.—(AP)—Two "sharp" earthquakes about 100 miles southeast of the Fordham University seismograph early today at a distance of 716 miles from New York.

Father Joseph Lynch reported that the shocks were recorded at 2:15 a.m. EDT and 5:14 p.m. "The shocks were sharp," he said, "but we were unable to determine in what direction the earthquakes were located."

THEY GOT IT ALL RIGHT!

Just a Lazy Afternoon a'Fishin'

Something like Tom Sawyer, kids at St. Albert like to spend a lazy afternoon "just fishin'." They're luckier than most youngsters, because their fishing grounds are almost in heart of town, on bridge which crosses sleepy little Sturgeon River. They can sit on the bridge, drop fishing

lines in the water, and just wait for jackfish or suckers to bite. Freckle-faced Edward Joyal, 9 years old, was doing just that when Bulletin photographer Eric Bland drove by yesterday.

Morinville's Narcisse Fortier Typifies Alberta Farmers

All too often city people forget about the farmer.

In their impersonal, big town way they forget about the grain-growing, cow-milking men and women who form one-half the west's prairie population.

It's not that they mean to forget about the farmer. It's just that in their better-kept life of offices and streets they don't get much of a chance to think about men like Narcisse Fortier.

Mr. Fortier is a hardworking little man who lives on a 200-acre farm about 1 1/2 miles out of Morinville, right on the new highway.

WIFE AND SON HELP
He runs the farm with his wife Florida and his sonborn 24-year-old son Ulf.

Right now, Narcisse Fortier is wondering when the first frost is going to come in the fall.

You see, he grows a lot of oats, but like most farmers around Ed-

(Continued on Page 3)
See "Morinville Man"

FROM OLD QUEBEC 63-year-old Narcisse Fortier came to Alberta 12 years ago. Now grizzled from years under the prairie sun, he owns his own farm near Morinville, keeps it running with his wife Florida and his son Ulf.

Anti-Communist Laws Hit at U.S. Red Plot

WASHINGTON, July 23.—(UP)—Sen. Homer Ferguson (R-Mich.), said today his new Communist control legislation would enable the government to break up the Communist plot against the United States.

He described the measure, which was approved yesterday by a Senate Judiciary subcommittee, as a "gross refinement" near the old Mundt-Nixon bill. The new legislation, he said, would "not destroy a person's rights nor lead to thought control."

Ferguson said the new bill "will give the justice department all that is needed to bring action against the Communists on the basis of classified data to foreign agents."

French Block Commie Move

PARIS, July 23.—(AP)—The Communists today lost the first round of their battle for block ratification of the Atlantic Pact in the French chamber of deputies.

By vote of 407 to 186, the lower house of parliament defeated a Communist motion to adjourn its indefinitely debate on the 12-power treaty. Communist deputy Francis Billoux who introduced the motion, called the pact a "communist act against Russia."

The assembly did vote 230 to 152 to postpone debate until Monday.

The motion Republican said he expected the full judiciary committee to act on the measure soon.

Before approving the legislation yesterday, the subcommittee inserted a provision extending the statute of limitation on prosecutions against persons who had over-

HUGE OPIUM HAUL MADE IN HONG KONG

HONG KONG, July 23.—(AP)—Opium and Heroin valued at approximately \$125,000 were seized today at Kaitak airport. It was described as the biggest narcotics haul in the history of this British Crown Colony.

Opening two suitcases left behind by two passengers from Kunning, China, revenue officials found 22 1/2 pounds of heroin and a large quantity of opium.

The passengers, upon arrival yesterday, told inspectors they were in a hurry to get out of town and would return next day for their luggage.

U.S. Senators Want Foreign-Arms Delay

WASHINGTON, July 23.—(AP)—Senators Robert Taft (Rep. Ohio) and Alexander Smith (Rep. N.J.) called on the government today to delay its foreign-arms program until the new North Atlantic council drafts common defense plans.

Smith, who voted for the treaty last year, said in a separate interview he agreed there should be a study of the needs of the European countries before Congress is asked to act.

Meanwhile, diplomatic authorities said mid-September is the earliest date the council can meet in draft common defense plans because of time needed for advance preparation.

President Truman originally had planned to send his \$1,450,000,000 foreign military aid program to Congress yesterday, but their delivery was postponed until Monday.

Senators said the shortage of eggs which sent prices soaring was due to farmers killing off their flocks before prices had begun producing.

Egg Prices Up Monday

Egg prices are due for another price hike Monday.

A recent shortage, and being the worst since 1945, a large flock of 50,000 eggs was taken to the market. Grade A eggs were 56 cents a dozen, Grade B 54 cents, and Grade C 52 cents.

There will be little if any change in Grade B 1 and cracked eggs. They are expected to sell in the stores at 41 and 42 cents a dozen respectively.

Dealers said the shortage of eggs which sent prices soaring was due to farmers killing off their flocks before prices had begun producing.

Authorities Send Investigators

MATTAWA, Ont., July 23.—(CP)—A dysentery epidemic which has killed 12 babies and affected upwards of 50 others is raging through rural settlements surrounding this little lumbering town and its threat is striking chill fear into parents' hearts.

The Ontario Health Department has sent a doctor and a sanitary engineer here to investigate the cause of the outbreak. Improvements are suspected, some means readmits obtain their drinking water from the river and others use wells into which filth may be seeping.

Some mothers in and around this town at the junction of the Ottawa and Mattawa rivers have gone without sleep for days to watch their children for signs that the sickness had struck. Settlers who have walked into town with desperate infants in their arms expect that children "just seem to fade" within hours after fever breaks the presence of the disease.

Dr. J. A. Bergeron, the town medical officer of health, said sanitary reports show no special bacteria but he thought it possible that the water had "something to do with it." He said the water in the Ottawa and Mattawa rivers here has been condemned for a long time.

The problem of adequate sanitary protection for Mattawa has been aggravated by the recent influx of people from the nearby hydro development at La Crosse. The newcomers have found temporary living quarters in shacks, garages, trailers and in already overcrowded houses. Their coming has swelled Mattawa's population to approximately 2,800 persons.

Indicating little could be done to isolate the disease, Dr. Bergeron said: "If it were just in one spot we could perhaps check it. Certainly we would have a better chance of isolating it. But this is spread over an area of 30 square miles and it is impossible to do much in 30 days as big as that."

Fix of deaths said Dr. Bergeron said yesterday in a letter to the Ottawa Health Department.

See "18 Babies Die"

Trade Minister Howe indicated last week the government will try to reduce this deficit by imposing controls on imports from the United States. Controls originally set on in November, 1947, but many have been relaxed since then.

Canada gets about 10 per cent of her imports from the United States, the Dominion Bureau of Statistics said yesterday in its May trade survey.

Canada bought \$40,000,000 more in the U.S. than she sold there during May. Exports were \$121,200,000 and imports were \$161,200,000.

Atomic Device World's Best

OTTAWA, July 23.—(CP)—Canada is proudest in atomic research, says an atomic reactor with the highest flux in the world.

That doesn't mean much to a layman, perhaps, but it means a lot to atomic scientists.

It means among other things that it's the most reactive in the world and can be used for nuclear energy. Just what, these experiments are, officials of the Atomic Energy Control Board aren't saying.

A reactor is a device to set off chain reactions in a controlled way. It's a controlled reaction, and it's the only way to get a steady flow of energy out of it.

It's a device to set off chain reactions in a controlled way. It's a controlled reaction, and it's the only way to get a steady flow of energy out of it.

It's a device to set off chain reactions in a controlled way. It's a controlled reaction, and it's the only way to get a steady flow of energy out of it.

It Happened TODAY

CARDINAL SPELLMAN

Religion

Fraser Cardinal Spellman, 62, called Mr. Franklin D. Roosevelt for his "religious" and "Catholicism" and specifically denounced his opposition to federal government aid to parochial schools.

Czechoslovak Communists denying excommunication said they will export "progressive Catholicism" to other countries. Government said any attempt to execute the Vatican's July 13 decree excommunicating militant Communists will be prosecuted as treason.

At Paris, Abbe Jean Boulier, a Roman Catholic priest who has associated himself with left-wing movements, was told by the Roman Catholic hierarchy that he will not be permitted to celebrate mass after Sept. 14.

Aviation

Busiest airport in Canada. International airport at Vancouver, celebrating its 10th birthday. It handles 680 aircraft a day and last month 11,000 passengers used its facilities.

American Overseas Airlines resumed flight operations when 78 APL radio officers ended a two-day walkout on the promise of the company to resume contract negotiations.

People

Dana L. Wilgress, Canadian high commissioner at London, unveiled a memorial stone to Guilford's new Cathedral to the late Viscount Bennett, former prime minister of Canada.

Charles (Lucky) Luciano, 47, spurned his Sicilian home town's offer of a new career in politics and left for parts unknown, perhaps Rome where he was recently asked to leave.

World

Council of the North Atlantic powers will meet in about two months to create the machinery for mapping the over-all grand strategy for the Western world in relation to Russia.

United provinces Government of India is planning construction of a paper manufacturing plant to produce 30,000 tons annually.

Republican and Federalist leaders in Indonesia announced at the end of their two-day conference they have reached agreement on the creation of a United States of Indonesia.

18 Babies Die In East Towns

(Continued from Page 1) grand, occurred in this town, on the Olds River and 30 miles east of Olds. While the other six were in district communities.

Six More Dead In St. Jovite

ST. JOVITE, Que., July 22.—(CP)—A "mysterious disease" was reported today to have taken the lives of six babies and possibly seven in this Laurentian mountain town in the last few weeks.

Police sources here said worried parents have asked that Quebec provincial medical authorities initiate an immediate investigation.

From all reports it appeared the children's deaths here were from an entirely different cause than the mysterious epidemic which has taken the lives of 12 babies in Laurentian settlements around Mattawa, Ont.

The babies already dead range in age from seven months to three years.

BLUE BABY
The first baby died some weeks ago, police said. At the time it was believed that because of its color it was suffering from a heart condition which caused it to be a so-called "blue baby."

Five other babies in this Laurentian town 50 miles north of Montreal all exhibited the same symptoms before dying in ensuing weeks.

These symptoms were a high fever, convulsions, turning blue, and death within seven hours after being stricken.

After death it was noted that the babies often were turned in and the fingernails and toenails were black.

Manners & Morals

A British court has been given a "toughie." It has to decide whether a woman can be pregnant 300 days. Problem is the result of a divorce suit filed by Charles Jones, a soldier. Jones claimed he was overseas for 260 days before his wife gave birth to a baby on Aug. 13, 1946.

The Nation

Fear of a polio epidemic in Vancouver has caused the general hospital there to issue an urgent call for graduate nurses. There are 30 cases in the West Coast city compared with 22 last year at this time. City's worst epidemic was in 1947 when 172 were stricken.

Manitoba wants to know all about the federal government's housing policy. Labor Minister W. L. Greenway of that province is going to Ottawa next week to meet Reconstruction Minister Winter. July 22 "is a general discussion" on the subject.

Not all Doukhobors are heading "east." A spokesman for a colony at Nilnash, 45 miles north of Nanaimo, B.C., says his group has no intention of joining a mass exodus of the religious sect to either Canada or Turkey. "Good riddance," he said when informed of the proposed migration of the radical sect of freedom.

Miscellany

Marcelle Armand, an Ottawa musician, will play a saxophone tonight.

New York's "Hippopotamus Express" branded the railroad as more of a "Polar Express" revealing that the train had just, on its trip to Niagara Falls in the last three years, almost 100,000.

Harry Davis, president of the Canadian Seamen's Union, called off the strike in London only because he knew he and his union were better off top-calling labor department officer said at Ottawa.

HARRY DAVIS
... Criticized.

A runaway weather balloon drifted across southern Ontario for two days, trailing lengths of steel, mounting rails and even two Toronto Airways for several hours.

NEW YORK, July 22.—(AP)—Radio operators yesterday called off a strike against American overland and transatlantic planes were permitted to resume service this morning. The 72 striking AFL operators agreed to sit down with the airline and try to three out severance pay and overtime demands.

3-Month Drought Gripping Italy

Urban Dwellers Philosophic; Farmers Are Harder Hit

ROME, July 22.—(Reuters)—Carlo Viterbo, 62-year-old Rome office clerk, pointed today to one of the million little electric lights that shine in the domes of religious shrines throughout Italy, and said "When they go out, then you can really say that we have a drought."

Carlo walks up six flights of stairs past a useless elevator two days a week to his office because the drought has cut electric supplies; the same days his wife, Pasqua, can only prepare him a cold lunch every mealtime he takes a wicker-covered wine flask to the street-corner fountain and fills it with cold spring water because the faucet at home gives only an intermittent trickle of brackish, fed water.

"But things are not really bad," says Carlo.

His attitude reflects the view of a great number of Italian city dwellers on the three-month-long drought. Many of them remind themselves, with a few grumbles, that "after all, there was a time when there was no electricity at all," referring to the days immediately after the war.

NO WATER DURING DAY
Industrial northern cities, close to the Alpine power sources, are not so severely affected by the drought as the south. Neapolitan homes are practically waterless throughout the day.

Farmers do not share the philosophy of the city dwellers. Guido Parola, a scrawny, shaggy man, his chin as he looked angrily at the film of grey dust covering his little vineyard outside Mondovì, Piacenza, north of here. He plucked off a tiny grape, sending a cloud of dust into the air.

"They should be twice the size," he said. Parola looked into a raincloud for three months.

UNDAY GAS IN B.C. Illegal
VANCOUVER, July 22.—(CP)—The sale of gasoline in British Columbia on Sundays may be a thing of the past.

In a supreme court ruling, Mr. Justice H. S. Wood declared the sale of gasoline on Sundays is illegal—except to doctors, tourists and others on an emergency basis.

The decision was handed down in a last case by a Vancouver garage whose employee, Lee Johnson, was convicted under the Lord's Day Act of selling gasoline on Sunday to police officers.

Johnson was fined \$25 on his conviction by Magistrate Mackenzie Matheson.

Mr. Justice Wood said today he agreed with Magistrate Matheson that the sale of gasoline is not legal "as work of necessity or emergency" within the meaning of the act.

New Volcano Rising Reported in Java Sea

BANDUNG, Java, July 22.—(AP)—Kratatau, the island volcano that blew itself out of the water in 1883 and killed 26,000 persons, left more behind than a fearful memory.

A new volcanic island is rising from the same spot in the Java sea between Sumatra and Java. This monster offspring is called Krakatau, like the old one. It is a bad color rumbling and belching clouds of sulphurous vapor.

But it is a menace that will result in another catastrophe for Indonesia? Scientists keeping watch over it think not—at least for the present.

Recent tests of material spewed out by Anak Krakatau showed the 10-year-old volcano is at the beginning of a new eruption cycle. This "favors the conclusion" that present activity is remote from a major outburst, a government survey cautiously pointed out.

Anak Krakatau is but one of 149 volcanic centres in the East Indies. Official reports show the others have taken 126,000 lives since 1800.

The man responsible for keeping an eye on the troublesome mountains of the Indies is a 58-year-old Russian, formerly a colonel in the Czar's cosacks, W. A. Petrovskiy, who heads the government volcanological survey for the Dutch.

He and a skeleton staff of nine keep tabs of a string of mountains that stretch in a 2,000-mile arc to form the backbone of the East Indies archipelago. Since funds for the work are skimpy, only one peak is equipped with a seismograph to record earth tremors and a "tilt meter" to measure swelling of its crater walls.

Chain Gang Escapee Says Not Returning
WINDSOR, Ont., July 22.—(CP)—Lawrence Guy, 19-year-old Canadian who escaped from a Tennessee prison, said today he won't return to serve the remainder of his 10-year sentence.

Yesterday, the youth refused to sign a waiver for his return to the United States, and Windsor police released him after advising U.S. authorities of Guy's refusal.

Guy said he was sentenced to a Tennessee penal farm for three years on a \$1,300 grand larceny charge. He said his six-month imprisonment on the farm, before he escaped by sneaking through a barred kitchen window, was "torture."

On Way Home
NEW YORK, July 22.—(CP)—Dr. Albert Schweitzer, medical missionary and scholar, called yesterday aboard the liner Nieuw Amsterdam on his way to his home in French equatorial Africa. He came here for the Goethe Music Festival at the 100th anniversary of the German poet's birth.

Freak Auto Accident Injures City Woman

A city woman received slight injuries in a freak two-car crash at 118 avenue and 97 street intersection yesterday.

WILLIAM SMITH
... Funeral Monday.

Veronica Lottick, 3649-104 street, was hurled to Royal Alexandra Hospital where she was found to be suffering from a cut lip, bruises and shock. She was released later in the day.

John Martin, 9421 308 avenue, driving with the injured woman, told police he was going north on 97 when he thought his brakes failed. He said he edged the curb in effort to stop but his car climbed the curb and rode into the intersection where it struck the rear of a car turning east on 118 avenue.

Martin's car continued across 118 avenue, finally coming to rest in front yard of 9354 118 avenue.

Norman Aziel, 11307 97 street, said he was proceeding north on 97 street. He slowed at the intersection to make a right hand turn. The next thing he knew, he said, he heard a loud crash and was facing south, having been spun around.

2-World-War Veteran Dies

Veteran of two world wars and resident of Edmonton for 12 years, William Wesley Smith, 10148 133 street, died at his home yesterday.

He was 64 years of age. Member of the Canadian Legion and departmental manager of L. T. Melton Real Estate, Mr. Smith was active in veterans' affairs in the city. He served overseas with the Royal Flying Corps in the First World War and with the 4th Casualty Clearing Station in the second.

Born in England in 1883, Mr. Smith came to Canada in 1927, settling in Rochford Bridge. He lived there until he moved to Edmonton in 1927 and had been here since.

Surviving are his wife, three daughters, Mrs. J. Stewart Rochford Bridge, Mrs. Joseph Forten, West Jasper Place, Mrs. Clara Boleyn, Jasper Place, two sons, Norman of Rochford Bridge and Robert of Jasper Place, and 18 grandchildren. He has three brothers and one sister in England.

Funeral services will be held at the Foster and McGawley chapel at 2:30 p.m. Monday. Rev. R. S. Faulk will officiate and burial will take place in the Soldiers' Plot in Mount Pleasant cemetery.

Hotel Theft Costs Woman Money, Watch

Theft of \$92 in currency and cheques, a watch in a silver case, and two railroad tickets was reported to police last night.

Mrs. Vera Lyons, Whitecourt, Alberta, told police the theft occurred when she left her hotel room at 5:45 p.m. yesterday. The room was still locked on her return.

City Dentist Dies at Coast

One of Edmonton's pioneer dentists died in a Vancouver hospital this week.

Dr. Donald Marion, 73, had practiced here from 1902 until 1942. He retired to Nelson, B.C., three years ago.

Dr. Marion was an ardent sports fan and for years endeavored himself to youngsters by coaching junior lacrosse and hockey teams.

He helped organize the first Edmonton Lawn Bowling club and was one of its first presidents. A native of Palmerston, Ont., he once taught school in Perth county prior to his graduation from Chicago Dental School of Surgery.

His wife, the former Lillian Burgess of Vegreville, predeceased him in 1912.

He is survived by one son, Dr. Ian Marion of Edmonton, and two brothers, George of Edmonton, and Peter of Vancouver.

Cab Driver Faces Charge After Smash

A city taxi driver faces a dangerous driving charge today following a spectacular accident last night. His cab is alleged to have struck a truck, smashed through a fence and stopped against a tree in a garden.

John W. Pennock, 9613 103A avenue, told police his cab developed a shimmy while he was driving on 102 avenue, 4:05 a.m. today.

He said he lost control and his car veered into a parked truck and continued over the sidewalk, through a fence and finally came to rest against a tree at 10026 102A avenue.

Patient "at lunatic asylum": "We like you better than the last doctor."

New Doctor (flattered): "How is that?"

Patient: "You seem more like one of us."

QUICK CHANGE was made by Edmonton Transit System men yesterday, when one of the 12-ton trolley buses had a flat tire. But within nine minutes after the tire went flat the bus was already to go. Good thing it doesn't happen every day, though.

Coal Prices Stay Steady

Keen competition from oil and gas companies is serving to keep down price of Alberta coal.

This, in effect, is what the president of the Northern Alberta Coal Operators' Association said yesterday when he announced new wage agreement between the association and United Mine Workers of America, District 18.

A. C. Dunn said six major coal companies signed the 1948-50 agreement which calls for an increase of 10 cents per ton to the miners welfare fund.

The increase will be absorbed by operators because "competition from oil and gas companies is so keen it certainly is not the time to increase the price of coal," he said. Companies to sign were Great West Coal Co., Beverly Coal Ltd., Riverdale Coal Ltd., Edmonton Coalfields Ltd., Samco Coal Co., and Red Hot Coal Co. Ltd.

Nut House Shop Breaker Caught in Store Office

One man was arrested last night when a police constable apprehended him in the act of ransacking office of the Nut House, 10145 Jasper.

Another man, believed to be an accomplice, was arrested when found in the alley behind the premises and was also charged with shopbreaking.

Arrested are George Cresswell and Thomas Chapman, no fixed address.

Discovery of the prowler was made by Constable Palmer who found the rear door of the store unlocked and entered to investigate.

Cresswell, the man found ransacking the office, was found to be in possession of a small chest with which he is believed to have forced the rear door.

Investigation of the office showed about \$2 missing.

Chapman is believed to have been acting as lookout while his partner worked. Following the arrests they denied knowing one another.

Both are former King Scouts of the 29th Boy Scout Troop and are now Rover Scouts connected with the 25th Rover Crew of Christ church under the leadership of Dist. Comm. W. W. Foster.

Strong swimmers, the boys are holders of the Canadian Red Cross Swimming and Water Safety Instructor's Certificate.

Total Communism Still Soviet Aim

Socialism Achieved; USSR Now Moving To Final Phase

By Eddy Gilmore

MOSCOW, July 23.—(AP)—Complete Communism, it is readily admitted here, has not yet been attained in the Soviet Union.

The Soviet people, led by the functions of the Soviet state have altered in accordance with the changing tasks.

NO EXPLOITERS

The function of military suppression inside the country, Komsomol Pravda said, has been removed because there are no more exploiters. Instead, the function of protecting the property from thieves and embezzlers has made its appearance.

The function of the military defence of the country against attacks from outside still remains, as well as punitive organs and intelligence now directed against external opponents and necessary for dealing with those sent into Russia by "bourgeois states."

Class distinctions, it is admitted here, do exist in the Soviet Union, but they will vanish with the highest phase of Communist society.

The main tasks of the second phase were organization of social-economic throughout the country. That, it is pointed out here, was the phase which ended with adoption of the new constitution of the USSR, Komsomol Pravda said.

Two FRIENDLY CLASSES

"There remain in our country,"

WANTED: BUFFALO HUNTER

Have you ever hunted buffalo? Historical Society of Alberta is anxious to contact anyone who actually took part in an old-time buffalo hunt.

Should such a person be located, he will be invited to take part in unveiling of a statue to be erected in Elk Island National Park to commemorate preservation and maintenance of the buffalo.

Anyone who can assist the Society in the search for a buffalo hunter is asked to communicate with Col. F. C. Jamieson, 212 Marston Building, Edmonton, Phone 26290.

He said, "Two friendly classes—the working class and the peasantry... has risen to the highest stage. It would be wrong, however, to deny that there are still no distinctions between the working class and the peasantry of the USSR."

"The distinctions which still exist result primarily from the distinction between two forms of communal Socialist property."

There are: 1. State property, 2. Cooperative, kolkhoz, or estate farm property.

Works, state farms, machine tractors stations and all state enterprises are the property of the whole people.

JOHNSTONE WALKER LIMITED

New Premises Required

The city has served notice on all business firms operating in the area which is to be occupied by the new Macdonald hotel extension to vacate their premises by the end of August.

If the city throws these people out of their stores and offices and shops without finding other accommodations for them, it will perform an act of rank injustice.

More than that, it will perform an act of economic folly.

There are 35 of these businesses in the area affected.

They employ 281 persons.

They have \$131,900 tied up in fixtures and \$500,000 tied up in stock.

From these 35 businesses the city receives annually in rentals and business taxes and light and water a total of \$30,000.

Exhibition Shows Real Enterprise

The Edmonton Exhibition Association is to be congratulated, not only on a first class show this year, but on the manner in which it is hastening to improve its facilities.

It is announced that the old grand stand is to come down as soon as the current fair is over to make way for a new concrete half-million dollar structure.

Work on this project is expected to begin on Monday.

Improvements to the Arena are already far along.

When the enlargement and rearrangement are completed, Edmonton will have one of the finest sports buildings in the country.

Directors of the Exhibition Association

These businesses have been in operation for one to 41 years. The average is 15 years.

The area affords sleeping quarters for 98 people.

Can all these people be thrown out summarily without the city undertaking to relocate them?

The small business man, as The Bulletin has remarked before, is the very heart of the commercial community.

To wantonly dislocate the operations of 35 firm employing 281 people is to provide precious little encouragement for other small industries and businesses to locate in this city.

The city has a moral obligation to see that these firms suffer no loss through this improvement in the downtown section.

It can do this by providing other quarters for every last one of them.

appear to have adopted the time-proven viewpoint that the only way to make money is to spend money and that the only way to operate successful exhibition is to provide adequate facilities that will make it pleasing to the public.

Nor have they forgotten that Edmonton is rapidly growing up and that as it grows up Edmonton people will become constantly more discriminating.

If some other Edmonton bodies evinced the enterprise shown recently by the Exhibition Association, The Edmonton Bulletin would not have so much to do and could take a long holiday from proving that the profession of journalism, of alert journalism at any rate, is essentially a profession of protest.

A Little Nonsense From Ottawa

The silliest order to come out of Ottawa for months is the new rule which will compel Canada's 4,800 urban postmen to wear black bow ties.

It seems that some of the carriers asked permission to discard their ties and remove their ties in hot weather.

The postal department was horrified at the idea.

So they are going to issue a little black tie that fastens to the collar but doesn't go around the neck. They must wear their

ties at all times.

The official mind must have been touched by the caption head.

What the Canadian public is concerned with is getting its mail on time, not with having that mail delivered by a fashion plate.

To compel mailmen to doll themselves up in coats and neckties on scorching hot days is a manifestation of stupid bureaucracy that will find no defense among reasonable people anywhere in Canada.

The Law of Brotherly Love

Over and over again, the Gospels emphasize the two-fold law of Christ, that he who would be saved must not only love God, but love his neighbor as well.

Thus, in the 5th chapter of St. Matthew, we find Jesus saying to his disciples:

"Except your righteousness shall exceed the righteousness of the Scribes and Pharisees, ye shall in no case enter into the kingdom of heaven."

Now the Scribes and Pharisees were the religious purists of Jesus' day. The extent of their religion was measured by the strictness with which they observed the religious law and the outward intensity of their devotions.

In their own way, they probably loved God.

But they did not love God in God's way which demands love among all his children.

So Jesus told all his disciples that the practices of the Scribes and Pharisees

were not enough. Strict observance of religious form is fruitless without kindness and forgiveness and charity extended to the Christian's fellow man.

On the opposite end of the religious spectrum to the Scribes and Pharisees are the humanists of today.

These are people who live strictly to the so-called Golden Rule, doing unto others what they would have others do unto them.

They are concerned entirely with kindness towards their neighbors. And they leave God completely out of their accounting.

They forget that the only possible brotherhood of man arises from the Fatherhood of God and that it is love of God which enables man to love his neighbor.

The two-fold law of Christ is to love both God and your neighbor.

Either one is incomplete without the other.

ODDS AND ENDS By Harold L. Weir

On That Parting Which Is 'Such Sweet Sorrow'

It is one of the vagaries of all un disciplined hearts to cry and peer into the emotional recesses of others.

The whim is not to be likened to the child's whim.

It is a whim of the adult, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

It is a whim of the adult's heart, a whim of the adult's heart.

Each parting is a little death in itself.

It is all segments of each other in a way, and when we are separated, one from the other, there is a sense of disunion.

We die a little when we part.

And the desire of the moment is aggravated by the knowledge that even a temporary parting involves a diversity of experience and a sense that it is dark essence of separation.

No two people can talk back time to reassemble the hours they have spent apart.

For a career is a long and narrow path.

For a career is a long and narrow path.

For a career is a long and narrow path.

For a career is a long and narrow path.

For a career is a long and narrow path.

For a career is a long and narrow path.

because "goodbye" is the loveliest word in any language.

"Goodbye" is literally a corruption of "God be with you."

It is an expressed wish that the traveler may enjoy the protection and goodness of the Almighty, that he or she may never be alone in the brightness of the day or in the darkness of the night to the end of the earth and beyond.

It is a beautiful thing to say and a beautiful thing to think.

And it is all the more beautiful because it implies, not only departure but a returning.

One who goes with God can never be quite apart from those who love him.

Yes, said God, with all the rest.

To those who travel on the earth, I say "Goodbye" with all the rest.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

The Thrill That Comes Once In A Lifetime

By Webster

RESULT OF INTENSIVE CULTIVATION WITH VASELINE AND HAIR TONICS

Letters to the Editor

Rent Control

Editor, Bulletin—Your editorial of July 19 asked: "What have you to say to rent control?" Let's see what should happen to it on or before March 31, 1950, in view of the fact that it is (1) unnecessary, (2) unjust, (3) oppressive and (4) self-defeating.

At the outset, this is Canada, not Russia, a professed democracy, not a totalitarian state. We claim that capitalism, as well as a democracy, is essential to the preservation of the procedure of totalitarianism.

Next to the family, whom we are still permitted to protect, we regard our homes — which under rent control, we are not now permitted to protect — as the most sacred things in our lives, and the most peculiarly our own.

Rent control is as unnecessary for the older-built homes as it is for homes built after January, 1947. The reason the newer homes are exempted is because no more new homes would be built privately by builders if the controls stayed on and the government would be told.

During the entire period of the First World War and until October 31, 1947, rent was at all times the cheapest of all our necessities. Since controls came in, rents have been held practically static while all other necessities have skyrocketed in comparison.

Rent control is a burden on the shoulders of owners of homes built before Jan. 1, 1947. It is designed to deprive the owner of control of his own home, gives the control thereof to the tenant or tenants, however irresponsible such persons may be, fixes an arbitrary rental which from the standpoint of value alone is sometimes totally inadequate and is sometimes excessive, and it degrades the most important aspect of the situation. Altogether, the underpinnings which make for peace in the home are thereby destroyed.

It is an expressed wish that the traveler may enjoy the protection and goodness of the Almighty, that he or she may never be alone in the brightness of the day or in the darkness of the night to the end of the earth and beyond.

It is a beautiful thing to say and a beautiful thing to think.

And it is all the more beautiful because it implies, not only departure but a returning.

One who goes with God can never be quite apart from those who love him.

Yes, said God, with all the rest.

To those who travel on the earth, I say "Goodbye" with all the rest.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

May they go with God.

Oil Drilling Contractors

Editor, Bulletin—I wonder how many people know that the livelihood of Canadian independent oil drilling contractors is threatened by the influx of U.S. rigs to the rich Alberta oil field.

Twenty-two rigs owned and operated by Canadian operators are standing idle because of lack of work. At the same time, nineteen rotary drilling rigs operated by U.S. contractors are at work in Alberta. A total of 23 U.S. rotary rigs have crossed the border with 16 of them laid up at present.

The price of drilling in the Alberta field is cut further than it has already, many independent Canadian operators will face bankruptcy.

Work For All

Editor, Bulletin—We stand today in a period of a coming depression. Every indication speaks of a greater press for work. There are millions of unemployed in U.S.A. and Canada at present and they are multiplying like grasshoppers in the prairie.

It is the old unsolved problem of poverty. There are certainly millions of unemployed in the prairie. It is the old unsolved problem of poverty. There are certainly millions of unemployed in the prairie.

It is the old unsolved problem of poverty. There are certainly millions of unemployed in the prairie. It is the old unsolved problem of poverty. There are certainly millions of unemployed in the prairie.

Nudists Revel At East Lake

NORTH BAY, Ont., July 23.—(UPI)—On the shores of a lake some 20 miles from here, approximately 20 persons are enjoying without clothes—and within the law.

They are members of the Sun-Air Freedom Lovers, a nudist camp affiliated with the Canadian Sun-Bathing Association. Camped on a carefully-guarded 1,000-acre property, they are spending the summer going after fresh air and sunbathing complete with six a.m. risings, community swims and sunbathing.

In addition, they are concentrating on building their newly-organized camp into a well-ordered settlement of cabins and cottages. The "naturists," as they call themselves, have rigid membership requirements and a definite philosophy.

They say that since they believe clothes are essentially a greater source of immoral suggestion than the nude body they have to be careful about who they allow to join them. Liquor is banned on the camp and untoward comments or actions result in dismissal.

The membership is varied too. Included in the persons listed are bankers, clerks, ministers, farmers, lawyers, salesmen and mechanics.

Grants Asked For NWT City

OTTAWA, July 23.—(CP)—A special commission on the finances of the North West Territories town of Yellowknife has recommended the federal administration make grants to the centre's library and Red Cross hospital.

The commission was set up by the North West Territories council, which administers the territories, to investigate financial relationships between the council and various bodies in the gold-mining town on the north shore of Great Slave Lake.

DRUGS NEEDED
A final report is being prepared, but the commission which concluded hearings July 11, recommended an interim report that \$22,000 be granted to the hospital to plan immediately to stock drugs and other provisions before navigation closes early this fall.

The Yellowknife library should receive a grant of \$1,200, the commission urged, to buy much-needed reference and children's books.

A third recommendation was that the council appoint, in consultation with the local board of trustees, an expert to advise on the setting up of an equitable basis for assessment.

Loser Hints Vote Rigging

REGINA, July 23.—(CP)—John O. Probe, unsuccessful CCF candidate for the Regina city riding in the federal election called today is petitioning the chief electoral officer in Ottawa for an investigation into alleged irregularities in the Regina election.

Mr. Probe yesterday lost a vote recount conducted by Judge B. D. Hogarth of the district court to Dr. E. A. McCusker, Liberal, by 162 votes.

In a statement Mr. Probe said "the main basis of petitioning for an investigation is the rejection by Judge Hogarth during the recount of at least 400 ballots, otherwise properly cast but marked with clearly discernible numbers, which had the effect of making possible the identification of the voter and destroying the secrecy of the ballot."

"How the numbers were placed on the ballots and who has been responsible for disenfranchising so many voters remains a complete mystery. The fact that of these numbered ballots at least 267 were for Probe while only 160 were McCusker's, I think suggests that may have been marked with intent to affect the result of the election."

BELLA COOLA, B.C.—(CP)—Ranchers Melvin Nygaard and Olof Osgaard got angry when they found some of their cows killed and mangled. They set out on the trail and in a week shot four grizzlies.

Three Arrested Over Shooting of Racketeer

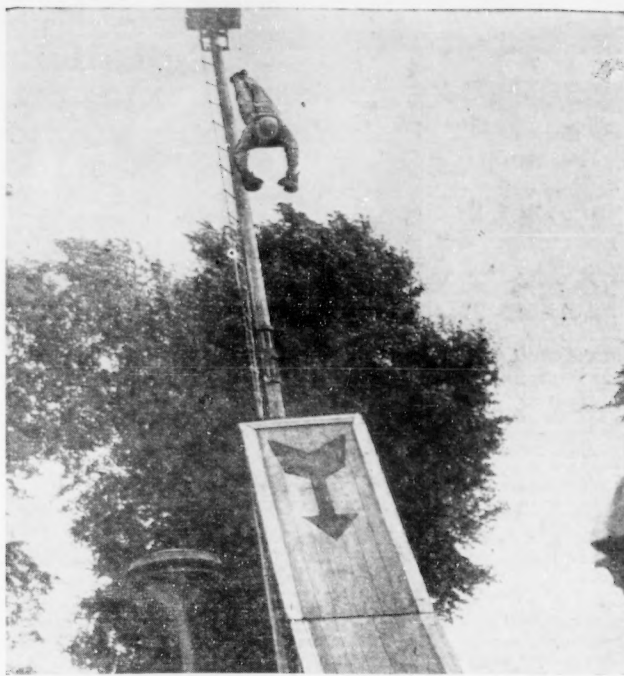

SAN FRANCISCO, July 23.—(AP)—San Francisco police today arrested three shooting of racketeer Mickey Cohen in Hollywood last Wednesday.

Police said the three picked up at the request of Sheriff Eugene Biscailuz of Los Angeles county were James Tarantino, publisher of a Hollywood night club magazine, H. Porter, his San Francisco representative, and Joseph Tenna, San Francisco nightclub owner.

All three were booked on a technical charge as "en route to Los Angeles."

In Los Angeles, sheriff's inspector Gordon Bowers said that Tony Brancato, one of three men wanted in the Southern California city for questioning in the Cohen shooting was apprehended early today.

Brancato, 40, was arrested once questioned in the Bugs Siegel slaying two years ago, was taken to headquarters for questioning.

DEATH DEFIER "Winging Willy" Kuebler, 54-year-old circus aerialist, shown leaping through air at Frankfurt, Germany, exhibition. Kuebler, who got only \$3 to \$5 daily for performance, jumps over 50 feet from platform, lands on curved wooden chute below. He wears helmet and boxing gloves to protect head and hands.

Chalk River Scientists Avoid Atom Contamination

WOULD-BE DIVORCEE FORGETS OTHER MATE

LOS ANGELES, July 23.—(AP)—Mrs. Adam Hamann, seeking a divorce from her sixth husband, was somewhat embarrassed when he countered with a charge she had forgotten to divorce one of her previous spouses.

As she stepped to the stand to testify yesterday, the husband, Walter Hamann, 48, retired insurance executive, had her arrested.

Mrs. Hamann, also 48, was jailed on a Nevada fugitive warrant charging her with bigamous marriage. She is charged with failing to divorce James Balsinger, whom she married in 1929.

Democracy in Senate High, States Senator

The Canadian Senate is the most democratic committee in the House of Commons, said Senator R. B. Horner from Saskatchewan today.

Recent newspaper attacks on Canadian senators were answered quite calmly by the veteran parliamentary senator in the House, he believes, the Canadian senate fulfills a vital obligation.

"They say we sit all long, he mused. The very fact that our sessions are long is good. It gives the general public and whose process of law-making a better chance."

"Everyone has the opportunity to be heard. The Canadian senate is barred to no one, irrespective of rank or class."

"They say some senators are composed of nothing but pure silliness," he said, "I should like to remind them that it takes at least 15 to make a quorum. And a quorum is necessary before the senate can meet."

Mr. Horner believes that it was appointments are made in the senate, the upper house can perform a vital service.

Reminding on the things in

Cohen, Messina and Anthony Fromm, minor territory of Kansas City, Mo., as three men wanted for questioning in the case.

Gambler Cohen and three other persons, including an attorney, were assigned to guard him, were wounded by heavy slugs fired from shotguns as they emerged from a movie-colours playground behind the Sunset Strip adjoining Hollywood.

Pope Receives Quint's Mother

VATICAN CITY, July 23.—(UPI)—Mrs. OUSA Dienne, mother of the quintuplets, was received in audience today by Pope Pius.

She came to Rome from France, where she visited the Lourdes shrine.

The Pope also received in private audience, Lionel Cheever, Canadian minister of transport.

Red Armies Near Key China Cities

Chiang Kai-Shek In Amoy As Changsha Threatened

HONG KONG, July 23.—(UPI)—Communist columns closing in on Changsha have reached within 30 miles of the key city and Nationalist headquarters have been moved.

These reports quoted Gen. Chen Ming-shan, newly appointed governor of Hunan province, as saying that Changsha would not be defended at all if the Communists could not be stopped in the suburbs.

NO FRONTAL ATTACK
Communist columns are closing in from the north, east and south. Apparently they are trying to avoid the frontal attacks which cost the Japanese two defeats during the war.

The central China command headquarters of Gen. Pai Chung-hai have been moved from Changsha to Hengyang. The bulk of his troops already are concentrated in Hengyang. Chinese reports said the Communists have driven to within 120 miles west of Hengyang.

A Communist column driving through Kiang province along the Kan river captured Taiho, 60 miles south of Kian, and continued southward.

Another Communist column in Kuekin province drove within 30 miles of Fochow. Further west Gen. Lin Piao's Communist forces reached a highway that will take them to Changsha, from where they can mount an attack on Changsha from the rear.

Generalissimo Chiang Kai-Shek has arrived at Amoy aboard the destroyer Tachang and will remain there three days according to reports. After that he is expected to return to Canton.

British Troops Move in East

HONG KONG, July 23.—(CP)—British army garrisons in the island colony will soon grow to 15,000 men under new defence plans.

The present strength of the garrison reinforced after the Communist advance in the mainland is about 14,000.

The present strength of the three services will soon reach 42,000, excluding the local volunteer regiment of nearly 4,000, a usually reliable source said today.

The rapidly-growing garrison is being gradually concentrated near the mainland frontier as Mao Tse-tung's Communist armies march closer.

VANCOUVER.—(CP)—"Shave and a haircut, two bits" seems an outdated question, but you can get it at the Technical Vocational school here—if you're willing to trust student barbers. Those who do can get the full treatment for 25 cents.

Special Service Sunday Evening

West Jasper Place Lutheran Mission will close its vacation bible school with a special children's service Sunday evening at 7:30 at the Pentecostal Chapel, corner 14th street and 100 avenue.

The children will give special musical numbers, present the bible ABC and give a number of holiday story recitations. Work of the children in handicraft will be displayed. The pastor will speak of "Our Responsibility in Christian Education." The public is cordially invited to attend.

Amateur Paula had a pony-express system for mail delivery.

Labor Holds Leeds Seat

LEEDS, England, July 23.—(CP)—Labor retained its seat in the West Leeds borough in a by-election held yesterday.

Result announced showed T. C. Pannell the victor with 21,933 votes, Bernard Maiber, Conservative, polled 17,806. The majority of 4,127 compared with a 14,136 margin in the 1946 general election.

It was the 34th time since the 1945 election that Labor successfully defended a parliamentary seat without losing a single one. The party standing remains at 391 seats for Labor and 202 for the Conservatives in the 640-seat House.

Rev. Lopston Feted By Beulah Tabernacle

In the services of Sunday, July 24, at 11:30 a.m. and 7:30 p.m., the congregation of Beulah Tabernacle and visiting friends will welcome and honor the Rev. Alex M. Lopston, a former Edmontonian.

From Edmonton Mr. and Mrs. Lopston first went to the foreign mission field in China in 1921. Six years later they transferred to missionary service in the Philippine Islands. Then they labored continuously apart from brief furloughs, until the time of the Japanese invasion of the Philippines.

Just before the invasion began they sent their two sons back to the homeland. After thirteen months of limited ministry among Philippine friends in the tropical jungle and mountains of the interior, the missionaries were interned by the Japanese.

Twenty-five months later they were released, a deliverance to the American Air Force which Mr. Lopston described as "miraculous." With health severely impaired by the rigors of internment, Mr. and Mrs. Lopston returned to North America to spend a time of recuperation. Now Mr. Lopston is again able to resume active ministry.

REV. ALEX M. LOPSTON

He has been commissioned by the Protestant Episcopal Church in the United States to return to the Philippine Islands in September to continue his valuable work in translation of the New Testament into three of the Philippine dialects which he knows thoroughly.

Mr. Lopston will spend a week in Edmonton as the guest of his sister, Mrs. Chas. H. Grant.

LONDON'S OLDEST CHURCH REOPENED

LONDON, July 23.—Attended by four Yeomen Wardens in full ceremonial dress of scarlet, gold and blue, Queen Mary was present at the solemn reopening here of the north aisle of All Hallows by the Tower, London's oldest church, which was destroyed by a bomb during the war.

The rites were presided over by Dr. John W. C. Wand, Anglican Bishop of London, who was met at the church by Lord Wavell, Constable of the Tower. The bishop and his chaplain travelled to the church by boat along the Thames River from Putney Pier to Tower Pier, where they were joined by an escort of clergy.

Among the clergymen present were two representatives of the Protestant Episcopal Church in the United States—Bishop Austin Pardue of Pittsburgh, and Suffragan Bishop Horace W. Baden-Dougan of New York.

First of the city's churches to recover from the effects of World War II, the Tower church was rebuilt largely through donations of money and materials from the United States and the British Dominions. Money is now being raised to install a new organ in place of the old instrument which Dr. Albert Schweitzer, world-renowned Protestant missionary, and an authority on organs, once described as the most beautiful in England.

The church has many connections with the United States. William Penn was born in the parish and baptized in the church, and the sixth President of the United States, John Quincy Adams, was married there.

Washington Man Heads Society

ORONTO, Dr. Ernest B. Bryan, president of the International Society of Christian Endeavor here at a meeting of the board of directors.

The officers meeting was held in advance of the society's 40th convention which is to attract 3,000 delegates from the United States and Canada.

When he announced his retirement, Dr. Bryan indicated he would continue to serve as president of the World Christian Endeavor Union, which is composed of more than 40 national bodies.

Church Rejects Civil Marriage

SACKVILLE, N.B.—The Maritime Conference of the United Church of Canada rejected demands at its annual convention here that it be authorized to perform civil marriages.

The conference, which is being held at the Sackville Hotel, declared that it would continue to refuse to perform civil marriages, the convention reported no general demand for the innovations urged by the two provinces.

Members Pledge 100 Work Hours

BANK, C. A. (Anglican) building program has been started here by St. Jude's Protestant Episcopal church with the formation of a "Hundred Hour Club."

For each member to keep a record of hours spent on the congregation's new work.

The volunteer builders are to perform odd jobs in an effort to reduce construction costs on the new edifice, which is being built in the main, by a contractor.

Women of the church will assist by keeping volunteer workers supplied with sandwiches and hot and cold drinks, thus contributing toward their 100 hours' required time.

Repair Funds Asked For Ancient Church

LONDON.—Appeals are being made here for funds to repair the time-worn fabric of London's oldest church—the Anglican church of St. Bartholomew the Great in West Smithfield—which was built in 1123.

The parish consists of only about 70 persons, mostly in poor circumstances, who are unable to meet the cost of repair, estimated at 20,000

Churches

TODAY'S MESSAGE

Not By Bread Alone

"I have a religion of my own, and I don't need to go to church," a man boasted. "I believe in doing things for people. I like to help youngsters who have got into trouble, or any of my friends who may be in need. Is there anything wrong with that?"

"Certainly not," replied his friend, "but doesn't it strike you you could do these things and have no religion at all? You wouldn't even have to believe in God."

"That's true enough, I guess, but . . ."

The friend cut him short. "You can't make a bad boy or girl good by these means alone. You've got to give them something more vital. You've got to give them a permanent, inescapable motive for being good. And the only such motive possible is his or her basic responsibility toward God. That means religion, but not your brand."

"Well," said the man, "hasn't it worked out that way in a lot of cases?"

The friend shook his head. "You can't make a bad boy or girl good by these means alone. You've got to give them something more vital. You've got to give them a permanent, inescapable motive for being good. And the only such motive possible is his or her basic responsibility toward God. That means religion, but not your brand."

"It means," the friend continued after a pause, "that the whole idea of service to others is fallacious unless it takes into account both the reality of God and man's obligations toward Him."

"You" he pointed a reproving finger as the man shrugged his shoulders in defeat—"make the mistake of ignoring the only enduring part of man—his soul. The 'service to others' you talk about is not a religion at all because it tries to leave God out of the picture entirely."

"Much worse," it is rank materialism. It's the same philosophy the enemies of religion are preaching everywhere today. It's easy enough to fill a man's stomach, but it takes a lot more to keep him contented and happy in mind and spirit as well as body. Think it over."

COME TO CHURCH THIS SUNDAY

Christian Science

"He sent his word, and healed them, and delivered them from their destructions." (Psalms 107:20)

"When the omnipotence of God is preached and His absoluteness is set forth, Christian sermons will heal the sick." (Science and Health with Key to the Scriptures, by Mary Baker Eddy, p. 245)

These passages illustrate the Sunday Lesson-Sermon on "Truth" in all Christian Science churches.

BREATHING FOR BABY came for five-month-old Dickie Morse when his parents took him to Los Angeles hospital. Doctors found his heavy breathing came from a half-inch sliver of needle in his heart. Surgeon performed difficult operation at hospital removing piece of steel from heart muscle. Doctors said Dickie probably rolled over on needle left carelessly in crib. Piece stuck into him and in few days worked itself to his heart. He's okay now.

Hawaiian Strike In Fourth Month

Strikers Ask Truman To Appoint Settlement Board

HONOLULU, July 23.—(UP)—More than 500,000 Hawaiians tomorrow start their fourth month of existing behind an apparently impregnable CIO International Longshoremen's and Warehousemen's picket line.

Although islanders still are not hungry, the economic drain now totals more than \$21,000,000. In addition, sugar valued at \$35,000,000 is heaped behind the strike-bound shippers, while the pineapple industry faces heavy losses due to the tinplate shortage.

CITY BETTING
Asked in B.C.
VANCOUVER, July 23.—(CP)—Legislating in downtown betting here was urged yesterday by the British Columbia Turf and County Club.

In outlining the club's scheme today, club chairman Jack Diamond said regulation tickets and handling of mutual tickets in the downtown area could be placed under RCMP supervision.

Color Broadcasts In Television
WASHINGTON, July 23.—(AP)—The Federal Communications Commission yesterday announced two regular television stations in New York and Baltimore will make experimental broadcasts in color.

World Citizen To Take Rest
PARIS, July 23.—(UP)—Garry Davis, a G.I. who renounced his American citizenship to become a "citizen of the world," said today he was going to take a rest.

Power Failure
NEW YORK, July 23.—(AP)—Thousands of homebound New Yorkers were stranded in smoggy, underground heat last night by a 45-minute power failure that knocked out two-thirds of the city's vast subway system. Officials said the power black-out was caused by a short circuit in the power house.

Gravity Surveys for Oil Cover All Saskatchewan

REGINA, July 23.—(CP)—Parties of men looking for "bumps" may decide whether Saskatchewan is ever to become an oil-rich province.

Crews today are busy making preliminary gravity surveys in sample areas of potential oil land. Gravity readings register disturbances or "bumps" in sub-surface strata.

Further data is then obtained by seismograph readings which determine in more accurate detail the extent of the disturbances. These structures then are drilled.

65 MILLION ACRES
An estimated 65,000,000 acres of potential oil land in Saskatchewan now is under permit and lease in United States and Canadian oil companies for exploration and development.

Reaching the peak this year, the rush of oil companies into the province in its oil acreage followed the discovery of the vast oil pool at Leduc, Alta. At the end of 1947 only about 6,000,000 acres had been taken up in Saskatchewan.

Operators taking part in the current Saskatchewan oil play include Sohio Petroleum Company, subsidiaries of Standard Oil Company (Indiana), Tidewater Associated Oil, Husky Refining, Phillips Petroleum, Shell Oil, Imperial Oil, British American Oil, Royal Canadian Mounted Oil, and Lamin Oil.

OUTLOOK GOOD
While a good deal of the high hopes of most potential oil lands in the province—only about 5,000 acres in the north are reported still available—is merely a preliminary play in case oil should be discovered, the present outlook for finding oil in Saskatchewan is considered encouraging.

Geologists have reported no known geological barrier between Saskatchewan and oil-rich Alberta. They say there is evidence Devonian strata, chief source of Alberta oil, underlie all the interior plains.

The job of oilmen in Saskatchewan will be to find the "oil-rich" reefs in the strata, similar to those in Alberta.

Provincial authorities point to the Lloydminster area, straddling the Alberta-Saskatchewan border, as proof of Saskatchewan's oil potential. Here "black" oil is produced as a fuel and in the production of asphalt, was discovered in 1940 and has been produced in good quantities since.

Ann Commins, born in 1885, was the first woman historian.

Russians Plan To Oust Tito
ZURICH, July 23.—(AP)—The Swiss newspaper Die Weltwoche yesterday said Russia had drawn up a detailed plan to overthrow Marshal Tito's Yugoslav government.

The Weltwoche is an independent weekly. The story carries no date line and does not specify how the paper got its information. The newspaper's editor declined to identify the writer.

Confirmation was lacking from other quarters, though economic and political pressures against Yugoslavia from her neighbors behind the iron curtain have been a matter of record for more than a year.

The newspaper account says: "The plan was laid down at a recent Kremlin conference presided over by Vyacheslav M. Molotov, deputy prime minister."

It does not provide for direct Russian military action, but rather indicates a Russian desire to let the Balkan peoples "fight it out among themselves."

Auxiliary forces of the Cominform (Communist International Information Bureau) countries would be placed under Soviet command.

MACEDONIAN LEAGUE
The Soviet-sponsored "Macedonian League" is to fight Yugoslavia with the help of Albania and Greek rebel troops to establish a land link between Bulgaria, Albania and set up a pro-Soviet Macedonian puppet state.

A full economic blockade would be imposed against Yugoslavia by her eastern neighbors.

The "National Committee of Yugoslav liberation," a pro-Communist organization, is to be recognized by the Soviet Union as the "only true representative of the Yugoslav population."

Frontier incidents are to be arranged to create friction between Yugoslavia and her Cominform neighbors.

Poll Shows Germans Feel No Responsibility
BERLIN, July 23.—(CP)—Four of five Germans in the western zones feel no moral responsibility for the Nazi persecution of Jews, a public opinion poll sponsored by the British-controlled newspaper The Well showed.

Nine per cent of those questioned felt they shared the moral responsibility, and 32 per cent had no opinion.

Only 19 per cent believed that Jewish claims for restitution of property confiscated by the Nazis were fully justified, while 41 per cent thought such claims partially justified.

Italy Breaks Trade Talks
ROME, July 23.—(AP)—Italy suspended trade talks with Yugoslavia because of the Tito government's policy toward Trieste, government sources reported today.

The talks, abruptly halted this week, were practically completed, and an agreement providing for an annual exchange of goods valued at \$40,000,000 was about ready for signature, these sources said.

Yugoslavia's recent substitution of the dinar for the Yugoslav dinar for Trieste zone and a declaration by Marshal Tito that his country would never give up its claims in Trieste generally were believed to have precipitated the break.

PIQUED PAIR DEPRIVED OF PACHYDERM

OXNARD, Calif., July 23.—(AP)—Any elephant given away on a radio quiz program would be a white elephant for most participants, but not for Mr. and Mrs. George King.

They filed suit yesterday against Columbia Broadcasting System for \$10,000 damages, charging that a promised Indian elephant had not been delivered.

King, an elephant trainer, says he has been waiting for the pachyderm since his wife won the quiz show prize for all March 17, 1948.

What did he get? A case of peanuts, a suit of clothes and a ticket to a circus where he could watch an elephant, says the complaint.

Color Broadcasts In Television
WASHINGTON, July 23.—(AP)—The Federal Communications Commission yesterday announced two regular television stations in New York and Baltimore will make experimental broadcasts in color.

If the experiments are successful, one station expects to transmit surgical and blood techniques from Johns Hopkins hospital for the benefit of American Medical Association sessions in Washington and the rest.

World Citizen To Take Rest
PARIS, July 23.—(UP)—Garry Davis, a G.I. who renounced his American citizenship to become a "citizen of the world," said today he was going to take a rest.

Davis, who recently denounced the Atlantic Pact, said he hoped to go back to his home in the United States to be a world citizen.

"Some day I will return to the U.S. because I hope we will have a world government," he said.

When I come back, I will be a witness to the growing poverty for world citizenship."

Power Failure
NEW YORK, July 23.—(AP)—Thousands of homebound New Yorkers were stranded in smoggy, underground heat last night by a 45-minute power failure that knocked out two-thirds of the city's vast subway system. Officials said the power black-out was caused by a short circuit in the power house.

THE GEORGE E. FAILING SUPPLY CO. LTD.

Announce The Opening

Western Canada Headquarters

Drilling Rigs and Drilling Supplies

FAILING DRILLING RIGS
Unconditionally Guaranteed

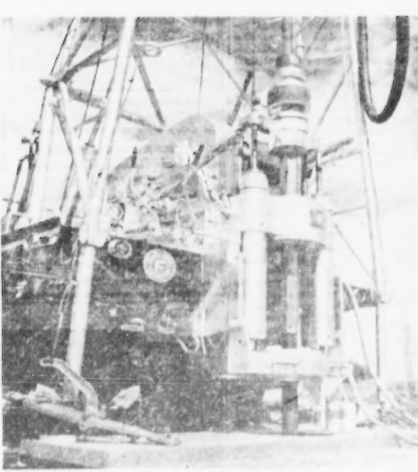

Since its inception, the George E. Failing Supply Company has followed the unwavering principle of producing the best portable drilling equipment possible. Failing products are manufactured in the heart of the oil country; they are engineered by men who know the requirements and problems of the industry. Every part and every unit is subjected to the most severe inspection and tests before being released.

FAILING drills contain the finest materials known. The component parts are made to exacting tolerances and heat-treated where necessary for greater strength and longer life. Models are available for every type of known exploratory work and every unit carries the FAILING unconditional guarantee of satisfactory performance.

We wish to announce that we will no longer be represented by the Union Trust and Equipment Co. Ltd.

BETTER SERVICE NOW AVAILABLE

The George E. Failing Company, Ltd., believe that better service can be made available to and will be greatly appreciated by their large and ever growing clientele, by the establishment of this Edmonton office and warehouse where a large and complete stock of parts and equipment will be carried and your needs will be promptly taken care of by a fully experienced staff.

TEMPORARY QUARTERS—HANGAR 18 MUNICIPAL AIRPORT

(Just North of Kingsway)

Sask. Area

Hard Hit By Drought

CADILLAC, Sask., July 23. — (CP)—Hundreds of thousands of prairie farm areas appear to be dying in this corner of southwestern Saskatchewan. Short, patchy stands of scorched wheat with unfilled heads dot the flat, parched fields. Grass along the roadside is a dusty brown.

Four thousand farmers in the southwest have acknowledged no hope of a crop by cancelling their hail insurance. More are expected to do likewise.

Representatives of 2,000 farmers in the five municipalities surrounding this village 300 miles southwest of Regina yesterday asked for assistance until a familiar byword in the 30s—"next year."

GOVERNMENT HELPS

They met with government officials to devise a scheme whereby money could be given farmers to provide their hospitalization fees, their winter's coal and groceries and feed for their livestock.

Resolutions were passed calling on the provincial and municipal governments to provide the financial assistance and recommending that the wheat board return wheat for seed in the drought areas.

In return for the assistance the farmers were prepared to work on local projects such as road building, irrigation, planting, shelter belts and the seeding down of grass on prairie roadsides. Others would go as harvesters to various parts of Canada.

FODDER PROBLEM

The fodder-short farmers have another problem. In some parts of the province, where hay is abundant, some owners are reported trying to get "black market" prices.

But while the southwest was plagued with its worst crop failure in a dozen years, to the northeast and southeast and in some central Saskatchewan areas the possibility of bumper crops was promising.

The cropless farmer today, unlike the 30s, now can benefit as high as \$500 from a fund established under the federal government's Prairie Farm Assistance Act.

Rome Reds Rile De Gasperi In Stormy Session

ROME, July 23.—AP—Communist senators and Christian Democrats yesterday tangled in one of the roughest sessions ever seen in the Italian assembly.

Senate President Ivanhoe Bonomi broke up the name-calling meeting by recessing debate until next Wednesday.

The row started when Communists began questioning government handling of disorders in the recent mushrooming farm strike. The Communists accused the government of tolerating organized armed strike breaking.

"Cowards, rascals, swindlers and assassins" were some of the names the Communists hurled at the government.

Premier De Gasperi, white-faced with anger, shouted that "it takes nerves of steel to put up with your continual abuse. We are men, too."

LONELY VIGIL in Los Angeles hospital is spent by Betty Bowen, 16. She awaits word on condition of her fiancé who tackled bandit after being held up in car. Shots fired in fight wounded Alwyn Ivers, 19, critically, and killed bandit.

British Conservatives Launch '50 Campaign

LONDON, July 23.—(CP)—Winston Churchill's Conservative party told Britons today it would retain most of the major socialist laws already enacted, but halt further nationalization of industry—if voted back into power in 1950.

The party unveiled its campaign platform for the 1950 general election next year in a 20,000-word statement of policy entitled "The right road for Britain." A foreword by Churchill said the outcome would be the most momentous decision in Britain's history.

The wartime prime minister is to elaborate on the policy in a speech this afternoon at Wolverhampton, a Labor stronghold.

Seeking to oust the Labor government that has ruled Britain since 1945, the Conservatives pledged to:

Overhaul but continue state operation of all but one of the industries nationalized by Labor.

Restore parts of the nationalized road transport industry to private or municipal ownership.

Keep the tax-supported national health scheme, but make it more efficient and less costly.

Resist the expansion of Communism.

Give prior treatment to British commonwealth nations in trade, investment and immigration though, in relations between Britain and the United States "it will be Con-

Rainfall Hampers Playground Fun

Annual Inter-Playground Picnic Set For Thursday

The City Playgrounds have been closed several periods this past week due to rain and wet grounds making outdoor programs impossible.

The annual inter-playground picnic will be held at Borden Park on Thursday, July 28th, at 2 p.m. with an interesting program organized. All children will meet their playground directors at their home playgrounds at 1 p.m. for the excursion on foot or by street car and bus.

Each one should have their parents' permission to attend, two car tickets and a picnic. Tipton Park program has been designed to have the children back home by 6 p.m. All playgrounds will be closed afternoon and evening.

TRAFFIC TRAINING

In co-operation with the Alberta Safety Council, a traffic kindergarten will be held at Tipton Park commencing Wednesday, July 27th. An intricate portable traffic control system has been designed by Paul Lawrence of the Edmonton Safety Council and the school will have its official opening on Wednesday.

The Traffic Kindergarten will be set up for a few days at several playgrounds during the next few weeks, when it will go to Calgary for further use.

The school equipment will consist of battery-operated control lights and instruction will be given in the proper traffic regulations for smooth traffic flow. Children are invited to bring their tricycles, wagons and scooters for this special attraction.

Central: Vic Mason, chosen as president of Teen Club, with a birthday party is scheduled for July 27th at 2 p.m. at Legion Hall in the district. A birthday party is scheduled for July 27th at 2 p.m. at Legion Hall in the district. A birthday party is scheduled for July 27th at 2 p.m. at Legion Hall in the district.

Crafts proving popular here with all program creating an active scene at headfirst recreation.

McCauley: Special events have been run off thick and fast here with large entries, good cooperation from volunteers. A poster contest was won by Simone Perrault. Judges were Mrs. J. Brownell, Mrs. Craig and Mrs. A. Demers.

Jimmy Normey took first prize in the Fancy Hat Show. The Pet Show was a popular event with rabbits, cats, dogs and birds entered. Jean Tingle, Jack Nicola and Harley Rice were the winners.

DIFFICULT JUDGING A difficult judging job was accomplished by Mrs. R. W. Preston, Mrs. W. Ford and Mrs. E. Walsh. For Indian Day a teepee was built and feathers and paper bead necklaces made during previous craft periods. Chief Wier Salmon, surrounded by his braves and squaws presented a fine program with 50 painted and costumed children participating.

The winning costumes were won by Marvin Blauquet, James Cackley, Bernice Kollbrunn. They were judged by Mrs. A. Yokes and May Gieske.

Riverdale: A fancy hat show, freestyle contest and a picnic on the program was sponsored during the week.

Borden: A Pirate Day Birthday party, and treasure hunt were successful program activities recently.

An active volunteer committee of district mothers is rendering valuable service and assistance for these special days.

Eastwood: On Thursday, July 28, the children from Eastwood playground will walk east on 18th to the North Edmonton bus stop to meet the director for a trip to Borden Park for the Inter-Playground picnic. The July birthday party will be held on Saturday, July 30. Treasure Island Customs will be the correct attire for the day.

King Edward Park: A large list of interesting activities has helped the children while away many idle hours here during the past weeks. Recent events were: "Dress-up Parade," Treasure Hunt, Picnic, Scavenger Hunt, Wheel Parade, Indian Day, Band Concert, Teen age and adult volunteers have been active and assist with planning, organization and control of special events.

WAR AMPUTES

Pleasant View: A successful birthday party was held here recently with the community league and the War Ampulees Association assisting by the donation of ice cream and cake. A Doll Contest was won by Dawn Pierce. Ken Avison took first prize in the Toy Contest. A race program was run off with the following winning events: Carol Murray, Francis Gardner, Trudy Cough, Only Miller, Arthur Collier, Mercedes Zelenka, Lynn Miller, Mickey Connors, Gary Miller, Thera Tonoux, Barbara Gardner, Lorraine Gardner, Judy McChure, Barbara Madson, Myra Leewen, Ralph Haguen.

Children from Pleasantview will visit at Tipton on Tuesday, July 26 and will meet at Community Hall at 9:45 a.m. for the conducted trip. Each one attending will re-

EDMONTON BULLETIN, Saturday, July 23, 1949

quire a picnic lunch and two car tickets if old enough to use them.

Westwood: Recent special events included Hat Contest and Still Contest. Gladys Forbey and Mildred Bacon are regular volunteers for the children's craft program.

Westmount: The July Birthday Party featured pony rides. Mothers supplied individual cup cakes. Football, volleyball, gym, rhythm, band, games, stories and crafts are regular program events.

HIKE IN AUGUST

Tipton: A teen hike is being planned for the first week in August. A birthday party and a checker tournament were recent successful events.

The children's craft program held each day has turned out some fine paper projects.

Boyle Street: A hose spray for hot days has been rigged up on the playground proving a popular and successful addition to activities here. A winner roat and scavenger hunt is being planned for the near future. The recent Indian Day program was a real success, and the winners of various events were Tom Routh, Don Sherbert, Mae Swift, Bobby Wyld, Howard McPherson, Kenny McPherson, Verna McLean, Kenny Huk.

Forest Heights: A scavenger hunt has been planned for July 27. A doll and pet show was held last week with 21 children participating.

Elmwood: The "Boys' Beaver Club" has been organized with the following executive: President, Shirley Slusky; vice-president, Gail Homrigh, secretary, Adele Novelli; treasurer, Teddy Christensen.

Activities will consist of treasure hunts, sports and games. The hike is being planned for late in August. All children will meet at 1:30 at the playground on July 28th for a trip in Borden Park. On July 28th a birthday party will be held, using the treasure hunt theme.

At 2:30 p.m., Wednesday, July 27th, at Tipton Playground, the Edmonton Recreation Commission, in cooperation with the Alberta

Safety Council, will present the first public demonstration of Traffic Kindergarten.

Tipton: Playground is at 109th street and 84th avenue.

Traffic Kindergarten is a kindergarten, interested, complete with traffic control lights. Lessons in proper traffic behavior will be given to children at all playgrounds in July, after which the apparatus will be moved to Calgary and other points.

You are cordially invited to be present and to bring any other persons who may be interested in the promotion of traffic safety.

Dock Dispute Involves N.Z.

AUCKLAND, N.Z., July 23.—(CP)—The New Zealand government has intervened in the dispute over a Canadian vessel, blacklisted by longshoremen who threatened to tie up the Auckland waterfront. It was learned today.

The ship, the Citadine Valley, was allocated a berth. However, it is understood the government has ordered the vessel must remain at anchor until the dispute is settled.

The dockers have branded the Ottawa Viceroy as "black" and refused to work if they also threatened a strike if the ship was allowed a berth.

Unemployment Growing In U.S.

WASHINGTON, July 23.—AP—Unemployment insurance payments in the United States hit a record monthly level of \$154,000,000 in June, the Bureau of Employment Security announced yesterday.

Director Robert C. Gooden said that nearly 100,000 more jobless workers received unemployment benefits each week in June than in May.

This sale also continues at our Salvage Warehouse, 9528 - 102 Avenue, one half block west of Jasper at 95th Street.

ARMY & NAVY DEPT. STORE

GETTING IN PRACTICE howls in preparation for dominion cricket tournament, opening here tomorrow morning is Jack Edwards, captain of Alberta team. Four provinces—Ontario, British Columbia, Manitoba and Alberta—will take part in big event.

MIGHTY SWIPE is taken by Maurice Grant as Alberta cricketers go all out in practice for Dominion tournament. Wicket keeper is Pete Cullum, member of Harlequin club. Both will play prominent roles as Alberta guns for championship in week-long competition.

Eskimos Blow Big Lead As Huckabay Catches Fire

WOODY HUCKABAY ... Has fun with Esk.

CALGARY, July 23—(CP)—Woody Huckabay, Puritty shortstop, hit a payoff single that scored two runs and then drew the fire of Edmonton Eskimo fielders while another run crossed the plate to provide a weird, but winning climax for Calgary Oilers last night.

Puritty won the Big Four baseball league game 9-8, the Oilers going into last half of the ninth with the count 8-5 against them, got into winning stride when Kelly singled and scored on a single by Ernie Choukaio and a long fly by Walt Gully. Then a base on balls and an infield error loaded the sacks with Huckabay coming to bat.

BIG SINGLE—Puritty shortstop drove a sharp single to center field to score Choukaio and Beland, tying the count. Noon then raced home while Eskimo fielders were trying to catch Huckabay between first and second.

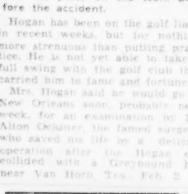

Earlier Puritty had pulled into earlier with a four-run eighth inning, but when it looked like they would move ahead for the first time, Richie Carlisle, batting with bases loaded and with a two out of three record at the plate, got himself thrown out of the park for arguing over a called strike against the batter who preceded him.

HEAVY THUMB—Al Byman, Puritty first baseman, followed Carlisle as umpire Johnny Bruckner stopped the arguments with a heavy thumb.

There were five home runs in the game. Choukaio and Carlisle hitting round-trippers for Puritty while Len Karlson, Ed Morris and Ted Tappe hoisted the ball over the fence for Esk. Lake collected 15 hits to Puritty's 12, and chased starting hurler Jack Mills to the showers in the eighth. Arnie Fernandez, who took over because winning pitcher.

Hogan has been on the golf links in recent weeks, but for nothing more strenuous than cutting practice. He is not yet able to take a full swing with the golf club that suffered him in fame and fortune.

Mrs. Hogan said he would go to New Orleans soon, probably next week, for an examination by Dr. Alton Chouder, the famed surgeon who saved his life by a delicate operation after the Hogan was hit by a Greyhound bus near Van Horn Tex. Feb. 2.

BEN HOGAN ... Has fun with Esk.

Something Special For Youngsters

Youngsters who lean to baseball, tennis, football or basketball will be in their glory Monday afternoon. They will be at the Edmonton Youth Center, Commission's Summer School of Sports at South Side Athletic Grounds at Clarke Stadium.

Fun goes underway at 1:30 p.m. Instruction for the day will be given by the following: Coach of the Big Four Baseball League, Ed Morris; Coach of the Edmonton Football League, and Senior Football League players.

Elk Island Plans Baseball Tourney—A round-robin baseball tournament will be held July 30 and 31, according to Martin Adams, director of the tourney. Second Division teams already are entered and the welcome mat is still out.

LAUBMAN DESERTS CLUBMEN

Leafs Drub EAC 13-2 To Improve Standing

Maple Leafs flattened EAC 13-2 in junior baseball action at Clarke Stadium. The win lifted the inter-league Leafs to within two games of league-leading South Side Athletics and left the Leafs in fourth spot in a half-game out on Canadian League.

Leaf hitters combed Ben Hoskins on the EAC mound for 15 runs, 10 hits and three homers. Second baseman Ray Harry knocked the cover off the ball for three safeties.

The winners stored five times in the first inning on singles by Walt Lockhart and Mike Dombroski, three EAC errors and three walks. After the opening sortie the game

Alberta Golfers Find Riverside Tough Nut

RIVERSIDE GOLF AND COUNTRY CLUB, Saint John, N.B., July 23—Members of Alberta's Willingdon Cup team had their first taste of the tough course here yesterday and came away knowing it was to be a hard grind.

Acting spokesman for the team, Vern Mohs, "guessed he was somewhere in the 70s." Ronnie MacWilliams, of Calgary, was low man with an 18-hole 74 total.

Most of the day was taken up with experimenting on the long fairways. Scores ran from four to six over par, and there was little indication that Riverside would surrender to the reputation of never being beaten in a 72-hole tournament.

GRAY UP EARLY—Mohs teed off this morning at 10:15 in the first 18-hole match play round with Alex Williamson of St. John playing over his home course. Glenn Gray of Edmonton Mayfair drove his first ball at 8 a.m. Youthful Jim Harper of the Highlands was scheduled on the first tee one hour later, playing against Walter Reed, Jr.

Officials of the huge tournament event Ontario the best chance to upset British Columbia, the defending champions today. Aggregate team totals on medal scores will decide the winners.

It's considered a "handicap" from last year with the B.C. team, said the team did too much experimenting to keep track of medal scores in the practice rounds.

Of the 32 players comprising the eight provincial teams, none was able to beat par 72.

Fight for junior title today may produce one of the surprises of the big golf show that moves into Canadian amateur championship next week.

Laif is known about many of the youngsters outside of their provincial titles. In winning provincial titles, they are proving tough in range because of a surprisingly large number of newcomers.

Anavets Busy

Anavets of the Senior Soccer League are in for a busy week-end. Tonight at 7 p.m. they clash with BCAC in a regular league encounter at Clarke Stadium. Sunday Anavets take on the Ukrainian team in an exhibition match at Clarke Stadium, starting time being 5 p.m.

Inter-School Track Entries Pouring In

Entries for the provincial inter-scholastic track and field meet, to be held at Clarke Stadium Aug. 1, are pouring in at a brisk clip, according to A. L. (Pop) Lawrence, director of the under competition.

Although heading for entry close until next week, some 32 stars from many points in Alberta have shown their intention of participating.

Several winners at the recent Calgary, Stettler and Red Deer district competitions will be on deck.

Coming to the large number of entrants the meet will get under way at 12 noon.

Edmonton will be well represented at the meet with several members of the Edmonton Girls Athletic club and the Polar Bear club taking part.

Edith Skitch, who holds several Alberta titles, will head the local contingent, while others planning to vie for honors include Doreen McLeod and Ivan Head.

Recent rains that had the farmers

Ryan to Aid Shaky Cubs

Les Edwards Boots Four As Buffaloes Steal 9-4 Win

Chances are Jim Ryan, bespectacled first-sacker, will be back in Cubs line-up when the Motormen battle it out against Calgary Buffs in two games at Renfrew Park today.

In which case Les Edwards, Cub manager, will breathe a double-barrelled sigh of relief. For one thing Ryan, on the injured list all this week is missed, when he's not out there pulling his weight. He's a steady going sort in the field, pokes a mean wallop with the bickery as the general king-sized homers he's hit will attest.

Also there's the fact that Edwards has been filling in for Ryan and doing not too badly—until last night. The bossman committed four errors as Cubs went under to Calgary Buffs in wild and woolly fashion.

Consider the facts of this 9-4 Buff victory.

The Calgarians came up with but four hits. Obviously there's another explanation for their win in the opener of a four-game series. And it lies in the fact that "Tom Paul" Peterson, who opened on the mound for the locals, and Alex Omelus, in his unimpaired relief role of the season, combined to doled out 14 bases-on-balls.

FOR GOOD MEASURE—For good measure Omelus chipped in a pair of hit batters, catcher Carl Mori and outfielder Bill Gadsby.

It might be mentioned also that Cubs' error total went to a nice even eight for the evening's fun. All things considered, it's no wonder Jim Gibson's Buffs got by with but four safe knocks.

Turning point was the fourth inning.

Cubs breezed into this frame boasting a juicy 3-0 edge and looking for all the world as though they were on their way to another conquest.

Before Buffs were retired seven big runs had come over on one hit, eight free tickets to first and a hit batsman.

Quite apart from the woody pitching of Peterson and Omelus, who took over finally when it looked like the right-hander from Rocky Mountain House never would get the side out, real deal of the business was Reg Clarkson, Cub second-sacker.

With two out and nary a run across, Clarkson gunned up a force play at second that would have retired the side. After this the flood gates opened.

Clarkson, league leading hitter, continued his heavy network with two safeties in four trips.

Doug Stevenson, Cub handyman, came off the bench in the ninth and promptly was tossed out of the contest by umpire Johnny Lupul, basemanager Harry Ornest also crashed the act when it looked like Stevenson wasn't of a mind to go "peaceful like."

Incidentally, Stevenson struck out on a called strike to precipitate the shubar.

Ken Terry pitched well for the visitors. The Buff (allow) rationed the league leading Cubs to seven hits and wound up with a fine fourth by fanning out only pitchers Stevenson and Ryan, but Barry Robinson as well, to turn back Cubs in the last stands.

Report True: Herb Olson Has Flown Esk Coop

It's true—as reported yesterday—that shortstop Herb Olson has jumped the Eskimos.

The 18-year-old infielder from near Seattle departed for home late Friday without as much as an "I yes or no" to Esk manager Ralph Morgan or general manager, John Ducey.

Ducey, in Lethbridge at the present time, confirmed by telephone last night that Olson was AWOL.

"The Brooklyn people are plenty burned up at Olson's actions," Ducey stated. "No, I don't know what got into him."

Ducey indicated that Olson, scheduled to train with Hollywood of the Pacific Coast league next spring, had blown his chance as a result of taking his leave.

Don Lindberg, Brooklyn scout, had recommended Olson to Eskimo in the first place.

ON SPORT

Square Peg in Round Hole?

Maybe the boys at City Hall should stay clear of sports-promoting, meanwhile concentrating on building Edmonton into the great city it one day should be.

The other afternoon A. W. Haddock, city engineer, as he's known, made with the new plan of the city-promoted layout being reached on the old city plan, across the river from the Highlands course.

Among other things Mr. Haddock, who has been in the city for a long time, said that the new plan is "the second longest course in the city."

In other words, only the old plan and a newer one, long proposed, are to be considered. But for now, the city engineer is not going to build a new plan.

There is a new plan, however, which is being considered. It is a plan for a new course, which is being considered.

Municipal courses—call them public links, if you will—should be laid out with a nod in the direction of the city's future.

Your casual, weekend golfer doesn't want to test what little skill he has on a 3,000-yard course. Not a 3,000 or 4,000 or 5,000.

Give the Dub a Chance

Now, when the dub is mentioned, most men think of a golf club. But the dub is also a name for a golf course.

The dub is a name for a golf course, and it is a name that is being used by the city of Edmonton.

Better he should be able to negotiate a par-four with a modest 200-yard drive, followed by a working man's run.

Let him have an occasional crack at a short par-three, one that requires no more than a seven or eight iron.

Under such circumstances, even the week-end shot-maker will have his share of pars, to say nothing of an occasional birdie. Once in awhile he'll knock the stuffings out of his.

He'll know he has enjoyed the game, and that is the main thing.

Build it Right

No matter how you look at it, Mr. Haddock has been badly advised.

A long course costs more to build and maintain than does a shorter one. And considering that the city is pouring the taxpayers' money into the venture one would expect that costs—initial and otherwise—would be carefully investigated.

Build the golf course, certainly. But spend the money to the best advantage.

It's for certain they aren't throwing any money around at Municipal times. On the contrary, the city register has become the focal point down there, under the restrictions imposed on members, as compared with other associations.

The city's new course isn't to be opened until 1951 at the earliest. So there's lots of time for Mr. Haddock and associates to hunker-down on their grandiose plan.

Forget the 10 per cent, Mr. Haddock.

A GARDEN PAID

THE Teenie Weenie garden is very important in the lives of the little people, for there they raise most of the vegetables they eat. Each Spring the Respectable Mouse is hitched to the Teenie Weenie plow and the ground is thoroughly broken up. When the seeds are planted the little men must spend a great deal of time digging out the weeds and carrying water. Many hundred thimblefuls of water must be hauled from the creek to the thirsty young shoots. Sometimes the garden has to be constantly patrolled to keep destructive bugs and worms from eating the young plants.

One morning Gogo and the Dance discovered that a number of the young plants had been bitten off. There were many big tracks in the garden but neither of the Teenie Weenies could make out what animal had made them. The two excited Teenie Weenies decided to follow the tracks. They traced them to a dense woodland near the creek where they led into a hole under a stump.

The little chaps hid behind a fallen tree limb and watched the hole for a long time. Finally a great hairy head came out of the hole; the two took to their heels. They broke all Teenie Weenie speed records on their way to the shoe store where they gasped out their story.

"What did the animal look like?" questioned the Policeman.

"Like a b b bear. Only b b bigger than any bear you ever saw," said the Dance.

"It was a c-c camel!" put in Gogo.

"Did it have a hump on its back?" asked the Cowboy.

"Lawdy!" exclaimed Gogo. "We didn't stay long enough to see."

After a careful study of the tracks the Cowboy

said, "They are sometimes called camelions. You see the Cowboy? They make their homes down deep in the ground and they live on roots and plants."

"They sleep during the winter months,"

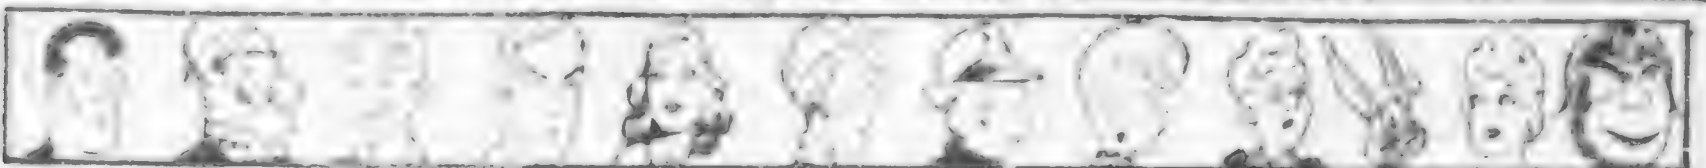

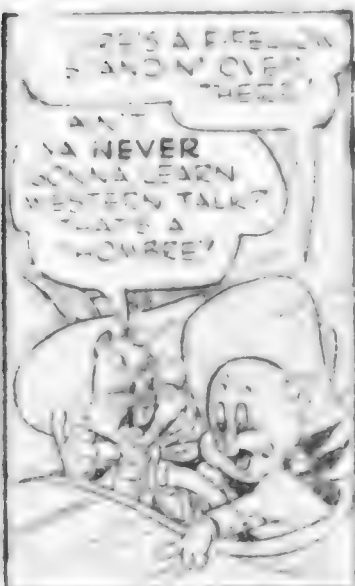

he said. "I guess I'd love that they were here. I'd like to see one of their holes. If they don't mind, they go back."

"You don't see that woodchuck?" asked the

Policeman. "He's placed about the garden. He makes a lot of noise, which probably

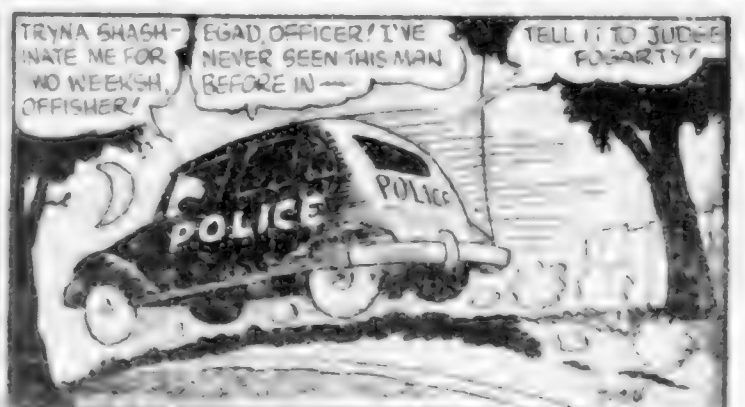

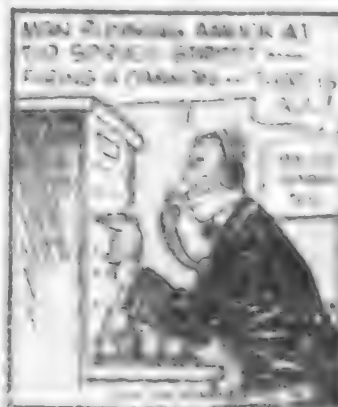

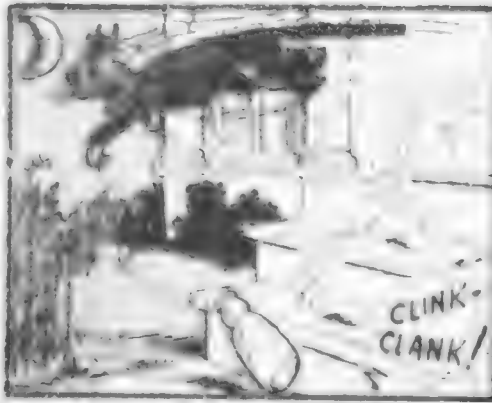

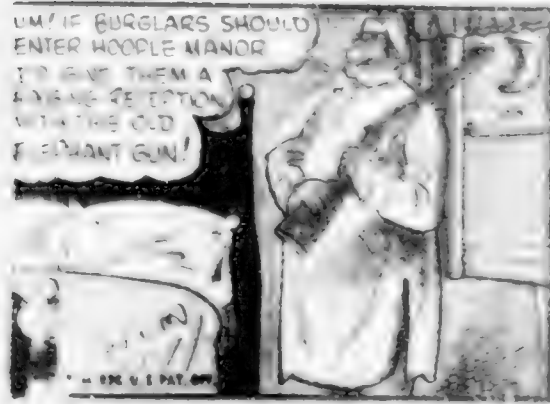

is why the Teenie Weenies don't like him."

"He's a good fellow," said the Cowboy. "He

MRS. ERNEST MEADEN

Long Career in Music Backs City Personality

By Dick Sherbaniuk

With more than 40 years later she is still a household name. When the late Mrs. M. E. Meaden passed away, she left behind a legacy of music that has shaped the city's personality. Her career in music was a testament to her dedication and talent. She was a pioneer in the field, and her work has inspired many others. Her music is a part of the city's heritage, and it will continue to be remembered for generations to come.

Success Spurs Pops Concerts

Sixth Concert In Plans To Meet Great Demand

A top-notch program that should prove to be one of the best yet for Wednesday night's "pops" concert at the Sales Pavilion.

Conducted by [Name], the concert will feature a variety of popular music, including [List of songs/artists]. The program is designed to appeal to a wide range of tastes, and it is expected that it will attract a large audience. The concert is part of a series of "pops" concerts that have been very successful in the past.

Three Drama Workers Win Appointments

A well-known Alberta drama group has been appointed to the Dominion.

The group, which has been active for many years, has been selected to represent the province in a national competition. They will be competing against other groups from across the country. The group is confident that they will perform well and win the competition.

[Caption text]

Chevrier Ends Air Discussion

MINISTER Chevrier of Canada said...

During his speech, Minister Chevrier discussed the current state of air travel and the challenges facing the industry. He mentioned the need for improved infrastructure and the importance of safety. He also touched on the economic impact of air travel and the role of the government in supporting the industry.

Mystery Girl Makes Record

She is President of the Alberta Drama League and a member of the Alberta Drama League.

The "Mystery Girl" has made a record in the world of drama. Her performance was exceptional, and she has earned the admiration of her fellow actors and the audience. She is a true talent, and her work is a testament to the power of drama.

Leduc Pupils Win Honors

Grade 1-Honors: Natalie Varney. Grade 2-Honors: Bonnie Martin, Geraldine Bradley, Patricia...

The pupils of the Leduc school have won honors in a recent competition. They were praised for their hard work and talent. This is a great achievement for the school and the community.

Derail Device Saves Train

GAMBRIDGE, Ont. July 22.

A derail device successfully prevented a train from crashing into a building. The device was activated in time, saving lives and property. This is a testament to the effectiveness of modern safety technology.

Reds Enforce Marriage Law

They are the first to do so in the province.

The Reds have enforced the marriage law, which was previously ignored. This is a significant step towards upholding the law and maintaining social order.

Three Mitten Pupils Pass Music Exams

They are the first to do so in the province.

Three pupils from the Mitten school have passed their music exams. They were praised for their skill and dedication. This is a great achievement for the school and the community.

Young Liberals Plan Convention

They are the first to do so in the province.

The Young Liberals are planning a convention. This will be an important event for the party, and it will allow them to discuss their platform and elect their representatives.

Trade Up

They are the first to do so in the province.

The trade up has been completed successfully. This is a positive development for the company and its customers.

Radio Has Tough Problem In Satisfying Audiences

By DON FLACH

What does the public want? This question raised in respect to radio programs has provoked comment from the Royal Bank of Canada which deals with the subject in the second installment of its regular monthly letter.

One of the greatest difficulties associated with a survey of radio is the question, "what should the public have?"

"In the first place," says the letter, "there is no 'public' opinion." Some like...

Recent audiences. Critics say it is the duty of radio to turn one kind of music into another kind of music.

Broadcasters, on the other hand, think this is a responsibility rather than a right. They are not sure what the public should like.

HOT WEATHER FADS "Sure to turn up in the hot weather is a vocalist who will not let a radio fan with an inner sense of rhythm and melody."

It is a common observation that the radio is a powerful medium for reaching a large audience. However, it also faces the challenge of satisfying a diverse group of listeners.

One solution is to offer a variety of programs that cater to different tastes. Another is to focus on high-quality content that appeals to a wide range of listeners.

Ultimately, the success of radio depends on its ability to connect with its audience and provide them with the entertainment and information they seek.

BOOKS

Essentially a handbook for people who are interested in the history of the book, this volume provides a comprehensive overview of the subject.

It covers the development of the book from its earliest forms to the modern era. It also discusses the role of the book in society and the challenges it faces today.

For anyone interested in the history of the book, this is a must-read. It provides a wealth of information and insight into the world of books.

OPENS SUGGESTION

broadcaster, might by little and by little lead listeners into appreciation of better than today's run-of-the-mill programs.

As Mr. J. W. [Name] of the [Institution] suggests, the radio should focus on providing high-quality content that is both entertaining and educational.

High PRAISE "The CBC (Canada Company) won't be a success unless it is a success in the eyes of the public."

It is a common observation that the CBC has been successful in providing high-quality programming to its audience. This is a testament to the dedication and talent of its staff.

The CBC's success is a result of its commitment to excellence and its focus on providing content that is both entertaining and informative.

It is a model for other broadcasters to follow. They should strive to provide the same level of quality and commitment to their audience.

Protection at Low Cost

You can provide yourself with a new source of income for your days of retirement by means of Mutual Life of Canada Insurance.

You can arrange to stop work at an age of your own choice and start to enjoy a regular income for the rest of your life.

Our local representative will tell you all about it.

VET TAKES THREE PRIZES

VANCOUVER, July 22.—A 27-year-old Edmontonian, MCAF veteran, has won three prizes in the University of British Columbia's department of architecture.

Toby, who won the \$150 first prize for his civic auditorium design, one year's tuition for his high school and community centre ideas and \$100 for highest mark in three senior years.

He is married and is in the fourth year of his domestic course.

University will comment on the scope of means awarded to the student.

Local architect and Government architect, Toby, is a member of the series on Architecture and the Study of the University of British Columbia.

Winner of the Opportunity Knocks series of novice talent at the Dominion network will be heard in a new series, Opportunity.

Varsity Miss Given Hints

OFF TO COLLEGE in [Name] is a new series of hints for people who are going to college.

It provides a wealth of information and advice on everything from choosing a major to finding a job. It is a must-read for anyone going to college.

THE DENTON is a four-room house with an attached garage that opens to the street. There is an expansion attic in which an additional bedroom can be completed. Dining space is provided at one end of the kitchen. Other features include L-shaped cabinets, a pot and pan cabinet and a broom closet.

Town Planners Want Edinburgh Beautified

By Don Gilbert

EDINBURGH, July 23.—(CP)—Princes Street, revered by Scots as the world's most beautiful thoroughfare, will be rebuilt if plans for a "new Edinburgh" go through.

But Sir Patrick Abercrombie and Derek Plumstead, the town planners whose report is now before the city council, do not expect the scheme to escape "sharp and informed criticism, and even abuse" from Scots who build a fierce loyalty and deep affection for Scotland's capital city.

Sir Patrick, one of Britain's foremost experts on town planning and his colleagues maintain the re-fashioning of Princes Street is "inevitable" within the next 50 years.

Of the existing buildings, they found fewer than half a dozen frontages worthy of preservation.

Plans call not only for redesigning the main street, but a general beautifying of the entire capital. Eye sores around the city's historic buildings would be removed, the smoke and noise in the valley between Edinburgh castle and Princes Street would be eliminated and a green belt around the city created.

To rid the capital of its polluted atmosphere—the smoke and grime affectionately called "Auld Reekie" by Edinburgh people—the planners propose electrification of suburban

trains and removal of long-distance trains from both Waverley and Princes Street stations to a new union terminus at Morrison Street.

In addition the area immediately opposite the palace of Holyrood House would be cleared.

The idea of the green belt, which would incorporate the Pentlands hills immediately south of the city, is to prevent building development encroaching on the open spaces.

The planners would like to see the capital's population stabilized at the present figure of slightly under half a million.

Carnival Notes
PICTOU, N.S.—(CP)—Lobsters weren't the only boiled objects at Pictou's annual Lobster Carnival recently. Thirty-three men pleaded guilty in court next day to charges of intoxication.

RC's Attend Church Oftener Exile Reports

FRANKFURT, Germany, July 23.—(AP)—Since Communists opened their recent attacks on the Roman Catholic church, Czech people are going to church more than ever before, a self-exiled Czech diplomat said here today.

In his first press conference since his escape July 14 from his Communist-ruled homeland, Jaromir Smutna said:

"I am convinced that the Czechs will stand even stronger behind the church because of Communist persecution."

Allow Four Divorces

Four decrees absolute of divorce were granted in supreme court today by Chief Justice W. R. Howson.

Decrees were granted to: Walter Zak from Ethel J. Zak; Florence M. Romney from James A. Romney; William J. Cummer from Barbara Cummer, and John Muirhead from Dorothy E. Muirhead.

Nation Loses \$49,300,000 During June

OTTAWA, July 23.—(BUP)—Federal government expenditures for June were \$49,300,000 greater than revenues, Finance Minister Douglas Abbott said today in the regular monthly statement issued by the treasury department.

The deficit was the first recorded since the beginning of the fiscal year 1949-50 on April 1.

For the first three months of the current fiscal year, however, the government showed a surplus of \$203,000,000, Abbott said. That compared with a surplus of \$322,000,000 in the same period last year.

TOTAL REVENUE
Total revenue for June was \$191,000,000 as against \$232,200,000 for the same month last year.

Total revenue for the first three months of this fiscal year was \$574,000,000 as compared with \$701,300,000 in the same period last year.

Total expenditures for June were \$240,300,000 as compared with \$165,500,000 in June of 1948.

Total expenditures for the first three months of the 1949-50 fiscal year were \$471,100,000 as against \$273,300,000 for the like period last year.

LOAN OUTLAYS
In addition, non-budgetary expenditures—that is, outlays for loans, advances and investments—amounted to \$60,700,000 in the first three months of the current fiscal year as compared with \$70,400,000 of similar outlays in the same period a year ago.

The budgetary expenditures this June, Abbott noted, included a charge of \$71,700,000 arising out of the assumption by Canada of the Newfoundland guaranteed stock as provided for under the terms of union.

The Angel was a gold coin first used in France in 1340 and introduced into England by Edward IV.

THE COOPER is shown with exterior walls of frame with wide siding. But because of The Cooper's low walls and lack of gables the plan is also ideal for the use of concrete blocks.

The Cooper has three bedrooms. All three of the bedrooms are grouped around a small hall. There is a kitchen planned to have ample space for dining. The large living room called

for in The Cooper's plan can also be used for dining due to its easy accessibility to the kitchen.

There is a generous allowance for closets in The Cooper. Every one of The Cooper's three bedrooms has plenty of closet space. There is a convenient coat closet in the front vestibule. There is a linen cabinet in the bedroom hall and the kitchen is equipped with a handy broom closet.

Plans provide a low roof line with wide over-hanging eaves on The Cooper. The low roof is to be covered with asphalt shingles.

The main body of The Cooper is 30 feet by 24 feet. It includes a full basement. It has an area of 960 square feet with 19,000 cubic feet.

For further information about THE COOPER, write the Small House Planning Bureau, St. Cloud, Minn.

Exotic Begonia Solves Problem

Mrs. J. A. McAfee Plants Tubers in Dull Spaces

Every garden has its conspicuously dull spots, especially northern exposures and underneath trees and shrubs. But Mrs. James A. McAfee of 11330 92 street, seems to have solved the problem completely by planting the tuberous rooted begonia. About two hundred of these exotic plants are tucked away underneath mountain-ash trees where they will attract attention from now until frost, retaining their freshness and brilliance for 10 days to two weeks.

Colors are both breath-taking and glamorous, from white, yellow, salmon, scarlet, and flame, the petals have waxy texture, the blossoms growing above attractive and heavily veined foliage. Its profuse flowering habit and resistance to disease are also two good points in its favor. Last but not least, they are very easy to grow which is a great insurance to a beginner who does not want to go to too much trouble.

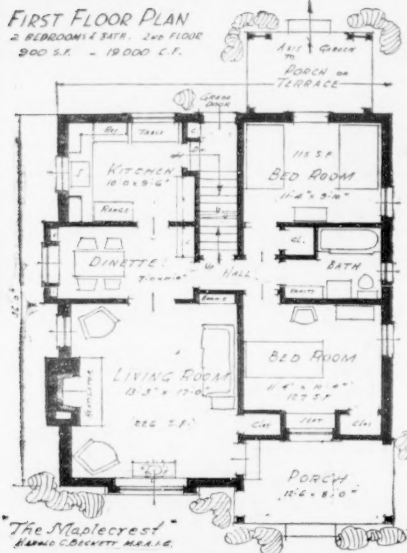

LIKE SHADE

According to Mrs. McAfee, to grow begonias and attain perfection it must be definitely understood that they like shade and moisture, and especially in the late afternoon when humidity is at its lowest a sprinkling of water on the foliage is best. Begonia is more distinctly the gorgeous colorings of these was-like flowers. Today Mrs. McAfee says, tubers are inexpensive and small tubers of good quality will yield as large a flower as a large tuber, except that the larger tubers produce larger plants and more flowers. There are various types to choose from, amble created, double frilled, double camellia and the pendula or hanging type.

Their soil requirements are very simple, light loam, peat moss and a little sand, with well rotted manure or bone meal. For earlier bloom the tubers should be started indoors in flats containing peat moss, leaf mold and a sprinkling of sand. They are placed in nest-like holes (four buried underneath the soil) where white fibrous roots start to form in about 10 to 20 days.

Soon the green leaf begins to show when they can be transferred to another flat with the tuber containing peat moss, leaf mold and a sprinkling of sand. They are placed in nest-like holes (four buried underneath the soil) where white fibrous roots start to form in about 10 to 20 days.

This is another in the Bulletin series of practical house designs by Harold C. Beckett, architect, 52 Chatham St., W., Windsor, Ontario.

THE "MAPLECREST"

This bungalow has been designed to effect comparative spaciousness within a limited area. The width of 26' 8" in brick permits a 12 and 14 foot joist span without waste. Room sizes are adequate as will be noted by furniture shown. A feature of interest is a through axis from front to back. Stair arrangement permits two large bedrooms and bath on second floor. The total hall space is only 2% of the gross area. This indicates a maximum of room sizes. Exposure preferred is south or east. An attractive porch gives shelter to the entrance doorway. General details are Colonial in character.

This is another in the Bulletin series of practical house designs by Harold C. Beckett, architect, 52 Chatham St., W., Windsor, Ontario.

New Indonesian Gov't Needs Years of Help

By S. Burton Heath

BATAVIA, Java, July 23.—(NEA)—Before the end of 1949, the Indonesians probably will be free, after more than 300 years as a Dutch colony. Their freedom will be complete and unconditional.

It will be at least five years, after that, before the government of the United States of Indonesia will be stable enough to resist strong pressure from Moscow. That is the estimate of Sultan Sahjari, political adviser to the government of the Republic, which the United States has backed unreservedly against both the Dutch and a majority of Indonesians.

NEED ASSISTANCE

Even that five-year period, Sahjari says, depends upon assistance from the western world. Without such aid, stabilization might take much longer, or Indonesia might have to turn to Russia.

But President Sukarno said he could not imagine any circumstance in which he would invite the Dutch, or the Americans or the British, to help resist Soviet or native Communist interference.

COMPLETELY CONFIDENT

He expressed complete confidence which few dignified observers feel—that he has enough loyal troops to handle anything that might arise. He says there

are only a few hundred armed Reds in Indonesia.

He did not account for some 50,000 "Communists" who were arrested by his government in the Stalinsk coup last September, and released from prison in December when the Dutch attacked Djokjakarta in the "second military action."

President Sukarno and his vice-president, Mohammed Hatta, have been bitterly attacked for their collaboration with the Japanese during the Second World War, on the one hand, and have been accused as Communists on the other.

Interested Onlooker

CORNER BROOK, N.D.—(CP)—Chief game warden H. W. Walters had an unexpected visitor while fishing on the Upper Humber river near here. A large moose came out of the woods, stood about 20 feet away in the river and watched while the warden landed a large salmon. Then it

left.

False Money Ring Nabbed

FRANKFURT, Germany, July 23.—(UP)—U.S. Army authorities said today they had smashed a 10,000,000-mark (\$3,000,000) counterfeit ring and had arrested an unlicensed number of German, French, Spanish and Polish nationals.

Army agents said the ring set up printing presses in Paris to flood Germany with fake bank notes.

Serial numbers on fake bills seized indicated that almost 10,000,000 counterfeit marks had been printed.

THE BRYANT has a compact plan which provides for two bedrooms and a dining room. In The Bryant's plan the living room and dining room are joined together to form one large L-shaped room.

The Bryant's kitchen is entered from the basement stair hall. This hall is equipped with a convenient coat closet. Kitchen cabinets, in The Bryant's work room, are efficiently arranged to save steps. They include a high cabinet on the inside wall of the

kitchen, under which there is ample space for a breakfast set.

Closest space in The Bryant is also generous. Closet areas include a general closet and a linen closet in the hall. There is a towel cabinet and a linen closet in the bathroom. Each of the two bedrooms contains a roomy wardrobe.

Construction of The Bryant is of frame with wood joists and partitions. Siding is used for the exterior walls. The roof is covered with asphalt shingles.

Overall dimensions of The Bryant are 28 feet by 36 feet with a full basement. The house contains 1,900 square feet and 20,200 cubic feet.

For further information about THE BRYANT, write the Small House Planning Bureau, St. Cloud, Minn.

Ex-Czech Leader Fails Communists

Country In Economic Chaos Claims Escaped Chancellor

FRANKFURT, Germany, July 23.—(UP)—The Communist regime in Czechoslovakia, in 17 months of rule, has brought economic chaos and virtual political slavery to that once prosperous, happy country, an escaped democratic leader said today.

Additional Sport

U.S. Mermaid Sails For England

NEW YORK, July 23.—(AP)—Shirley May France sailed yesterday for England to take a crack at the tough English Channel, hoping to break the 50-year-old record of Gertrude Ederle.

The 16-year-old high school swimming star from Somerset, Mass., plans to tackle the 19-mile stretch of channel between Cap Gris Nez, France, and Dover, England.

That is the exact course Trudy Ederle followed in August, 1926, when she astounded the world by swimming the cold, swirling channel in 14 hours and 31 minutes. Five men had done it before but they said it was too tough for a woman.

Minneapolis Duo Wins Canoe Race

MINNEAPOLIS, July 23.—(AP)—Minnesota pair of Thomas Eitel and Eugene Jensen yesterday won the 430-mile Aquatic Canoe Derby in the record time of 36 hours, 52 minutes, four seconds.

Irvin Peterson of North Bend, Wash., and his brother, Floyd of Minneapolis, came in second.

Of 40 starting teams, including five from Canada, only 23 completed the race. One Canadian duo was among the finishers. Joe Peterson and George Kelly of Minn. Ont., ended in 11th place.

France, Italy In Tennis Final

PARIS, July 23.—(AP)—France and Italy, rated as a par meet today in the final of the European zone Davis Cup matches. Two more singles will be played today, a doubles match on Sunday and then two more singles. Monday Winner will travel to the United States, where the American zone champion will be met to decide a challenger for the United States, holder of the cup.

Anderson Shades Flying Parson

STOCKHOLM, July 23.—(AP)—Arne Anderson, Swedish international, defeated the American "Flying Parson," Gil Dodds, in a 1,000-meter run last night.

Both, however, were timed in 2:34.

Dodds is in Sweden on a seven-week preaching tour and will preach in 11 cities.

Snelling Pleads Guilty To Charge

SANTA FE, N.M., July 23.—(AP)—H. Tracy Snelling yesterday was sentenced to a year to 18 months imprisonment for embezzlement.

The 37-year-old former director of public information at the Los Alamos atomic project pleaded guilty to using personally \$1,008 of Red Cross funds.

Short-Circuit Caused By Birds

PARIS, July 23.—(Reuters)—Birds short-circuited a 20,000-volt high tension wire at Limoges in west central France today, killing two women farm workers.

The wire snapped, killed a cow, then electrified a barned-wire fence. The women were electrocuted when they tried to cross the fence.

Walcott Hops Plane

NEW YORK, July 23.—(AP)—Jersey Joe Walcott, heavyweight boxing challenger from Camden, N.J., will leave by plane today for Stockholm, where he fights Ole Tandberg of Sweden, Aug. 14.

WINDS LASH QUEBEC CITY; FOUR INJURED

SHERBROOKE, Que., July 23.—(CP)—Workmen today were clearing roads in this eastern townships area of uprooted trees and masses of debris left in the wake of a devastating windstorm last night which injured four persons and caused thousands of dollars worth of damage.

Harshest hit by the "terrifying wind" was the neighboring hamlet of Rock Forest where half a dozen barns, two homes and a church were damaged.

Bertrand Verduin, 11, Madeleine Martin, 15, and Jean Roby, 16, were in the small frame house of Antoine Verduin when the wind struck it. The building was turned over and the youngsters received lacerations and possible fractures.

Mrs. Robert Leslie was doing the evening milking—the storm occurred about 8:15 p.m.—when the barn was lifted 30 feet off its foundation. A falling beam killed the cow being milked but Mrs. Leslie suffered only cuts and bruises.

St. Roch's Roman Catholic church suffered severe damage. Four persons worshipping in the church escaped injury.

Some residents described the storm as a "twister", others as a hurricane. At any rate, it was part of a 400-mile storm belt moving across eastern Canada.

DEAD CINCH IS DEAD HORSE

VANCOUVER, July 23.—(AP)—Printer, had a dead cinch running in the sixth race at Exhibition Park Wednesday.

It was the first bet of his life and he was sure of a killing.

The horse he backed, Gold Bay, ran true to her dead-cinch form. She dropped dead in the backstretch.

Bevin On Holiday

LONDON, July 23.—(Reuters)—Foreign Secretary Bevin left Victoria station last night on the ferry train for a vacation in France. Mrs. Bevin accompanied him. He will remain in France until he goes to Strasbourg to attend the meeting of the council of Europe Aug. 8.

VANCOUVER, July 23.—(CP)—Edmonton's lone entry in the British Columbia Lawn Bowling tournament, lost to H. Baker's White Rock rink last night, 19-15.

Russia Says Plans Ahead Of Schedule

LONDON, July 23.—(AP)—Russia said last night she had accomplished by 101 per cent plans for restoration and development of the Russian national economy in the second quarter of 1949. Reports of various Soviet ministries on industrial production, as heard here from radio Moscow, ranged from a top of production 100 per cent for the iron and steel industry to a low of 83 per cent for the country's fishing industry.
